INTRODUCTION

The emergency support function of Health and Medical services involves direction and coordination, operations, and follow-through during an emergency or disaster.

Purpose

ESF-8 Health and Medical provides operational guidance to departments/organizations that are assigned to work within this ESF. The mission of ESF-8 is to provide the mechanism for coordinated County assistance to municipal resources by addressing the public health and medical needs of residents, disaster survivors and emergency response workers during disasters, potential disasters or events that have the potential to impact the public's health. This, however, is not a tactical response document. ESF-8 Health

and Medical establishes the framework for the implementation of procedures addressing the local identification, registration, evacuation and sheltering support of individuals with access and functional needs.

Scope

ESF-8 acts to meet the Health / Medical and essential elements of information needs of operations to include emergency medical services personnel, facilities, vehicles, equipment and supplies for disaster survivors, including those with functional and access needs in an emergency or a disaster.

CONCEPT OF OPERATIONS

General

During an emergency or disaster, ESF-8 may be activated to support operations and assist with the development of a common operating picture. The scope, scale and magnitude of the threat/incident will dictate which support agencies will be requested for the support of ESF-8 Health and Medical in the Emergency Operations Center (EOC).

Preparedness

- a. Identify and coordinate the deployment of doctors, nurses, patient care technicians and other medical personnel to disaster areas, as necessary.
- b. Create and maintain a list of available medical supplies, equipment, transportation services, hospitals, medical care clinics, mental health services, durable medical equipment (DME) suppliers, and first aid units to support disaster response operations.
- c. Establish procedures to ensure the continuity of health and medical services to the community.
- d. Identify locations for the establishment of staging areas for medical personnel, equipment and supplies, as necessary.
- e. Identify facilities and/or locations to utilize as medical care centers should the primary emergency care facilities not be available.
- f. Coordinate with local healthcare entities (hospitals, long term care facilities, youth and adult clinical facilities) to establish procedures for the reduction, evacuation, and relocation of patients.
- g. Establish procedures for requesting medical assistance teams to provide support to disaster response and recovery operations.

- h. Establish procedures for the provision of medical and dental care, as necessary.
- i. Establish plans that reflect the needs of all persons to include those with physical disabilities, special medical needs, communication disabilities, those with intellectual and development disabilities, those with mental health needs, and non-English speaking individuals.
- j. Identify individuals within the general populous experiencing functional, access and/or medical needs, including those individuals within long term care facilities.
- k. Establish and coordinate procedures in conjunction with local and state stakeholders for the evacuation and relocation of individuals experiencing functional, access and medical needs. This is commonly referred to as the Hurricane Registry.
- l. Communicate with ESF-6 Mass Care/Sheltering and ESF-11 Agriculture/Food and Water for the provision of food services to individuals with dietary restrictions.
- m. Coordinate with ESF-6 Mass Care/Sheltering and ESF-11 Agriculture/Food and Water to ensure the delivery of food services to individuals who have a pre-identified functional, access and medical need.
- n. Establish and coordinate procedures in conjunction with both ESF-6 Mass Care/Sheltering and ESF-18 Animal Services to protect the public from communicable diseases and the contamination of food, water and pharmaceuticals.
- o. Establish procedures for the identification of disease, vector, and epidemic control.
- p. Establish procedures for the distribution of emergency immunizations.
- q. Identify procedures to provide testing of individual/private water sources (e.g. wells).
- r. Identify sanitary inspection procedures and establish protocols to control unsanitary conditions.
- s. Create and maintain a list of available environmental laboratory testing facilities.
- t. Provide guidance to facilities caring for Chatham County's vulnerable populations in the development and maintenance of emergency preparedness and response plans.
- u. Ensure essential public health information is monitored and coordinate with ESF-15 External Affairs for dissemination as appropriate.
- v. Identify procedures for the rapid provision of crisis counseling and mental health/substance abuse assistance to individuals, including the organization and

deployment of crisis counseling teams. Identify resources that will provide training and coordination of these crisis counseling teams.

- w. Maintain relationships with government agencies, professional associations, private sector entities, faith-based groups, and volunteer organizations to provide mental health and substance abuse assistance during emergency or disaster events.
- x. Ensure all ESF-8 personnel integrate NIMS principles.

Response

- a. Coordinate the delivery of health and medical services during an emergency or disaster event.
- b. Coordinate the provision of medical personnel, equipment, pharmaceuticals, and necessary supplies to support operations.
- c. Coordinate with ESF-6 Mass Care/Sheltering for the provision of health and medical services during sheltering operations, as necessary.
- d. Conduct a situational assessment to determine the need for the implementation of health surveillance programs.
- e. Coordinate the evacuation and/or relocation of individuals experiencing functional, access and/or medical needs as appropriate and communicate any limitations or resource needs to GEMA/HS.
- f. Coordinate public health and sanitation services, as necessary.
- g. Coordinate the provision of mental health and recovery services to individuals, families and communities as necessary.
- h. Coordinate the provision of essential public health information support to emergency medical services providers.
- i. Maintain a process for the distribution of all relevant health and medical information to the general public in cooperation with ESF-15 External Affairs and the state Department of Public Health.

Recovery

- a. Coordinate the restoration of essential health and medical care systems as appropriate.
- b. Provide assistance with the restoration of permanent medical facilities and the return to normal operational status.

- c. Coordinate and assist with the restoration of available medical supplies, equipment, transportation services, hospitals, medical care clinics, mental health services, durable medical equipment (DME) suppliers, and first aid units.
- d. Coordinate and establish methods for individuals with functional, access and/or medical needs and establish to return to an identified destination.
- e. Maintain situational awareness to determine the need for conducting environmental and epidemiological surveillance.
- f. Continue necessary assistance throughout the re-entry process and until all health and medical concerns have been resolved.
- g. Coordinate with local Code Enforcement authorities to issue Public Health notices regarding necessary clean-up actions on private properties.

Mitigation

- a. Support and plan for mitigation measures.

Organization

The County EOC will be activated to coordinate a multijurisdictional level response.

Representatives from the applicable ESF-8 Agencies may be assigned to the EOC or alternate location, as best suited to meet incident needs and coordinate operations.
