LETTER OF TRANSMITTAL LIST OF PRINCIPAL OFFICIALS ORGANIZATIONAL CHART

GFOA CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

December 4, 2017

The Chairman and Members Board of County Commissioners Chatham County, Georgia

The Comprehensive Annual Financial Report of Chatham County, Georgia (County) for the year ended June 30, 2017 is hereby submitted to meet the requirements of local ordinances and state statutes. Those requirements state that the County must annually issue a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited by an independent firm of certified public accountants.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including disclosures, rests with management. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. Management hereby asserts that, to the best of its knowledge and belief, the financial report is complete and reliable in all material respects. All disclosures necessary to enable the reader to gain an understanding of the County's activities have been included.

The firm KRT, CPAs, P.C., was selected by the Board of County Commissioners to provide independent audit services. The auditor's report on the basic financial statements is included in the Financial Section of this report and expresses an unmodified opinion. In addition to the audit of the financial records, the County is required to undergo an annual single audit in conformity with the provisions of the federal Single Audit Act Amendments of 1996 and the related U.S. Office of Management and Budget's Circular A-133, Audits of States, Local Governments, and Non- Profit Organization. The auditor's report on internal controls and compliance with applicable laws and regulations, including the schedule of findings and questioned costs, are found in the Single Audit Report, which is published separately from the Comprehensive Annual Financial Report (CAFR). The Single Audit Report can be obtained from the County's Finance Department.

The internal audit function is the responsibility of the Internal Audit Department. Internal audit is an independent appraisal function that examines and evaluates the activities of the County's various departments, agencies and officials. The Internal Audit Director reports to the County Manager.

In addition to independent review, the County has asked each department to document their internal control systems which is helpful to both external and internal auditors in their review of the County's controls and processes.

The Management's Discussion and Analysis (MD&A) provides an objective and easily readable analysis of the County's financial activities on both a short-term and long-term basis. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately after the Independent Auditors' Report.

Profile of the Government

Chatham County is the nucleus from which the present great State of Georgia has grown. Savannah was the first settlement recognized by the English government in colonial days. At Savannah, on February 12, 1733, with 116 settlers, the colony of Georgia was founded by James Edward Oglethorpe, a member of the English Parliament. In 1741, the Trustees divided the new colony into two colonies - the Savannah Colony and the Frederica Colony. In 1743, Oglethorpe departed for England leaving William Stephens, the first President of Georgia, over the government made up of the two colonies.

In 1758, the province was divided into eight parishes, one being Christ Church, which later formed most of the territory of Chatham County. In 1777, the first regular Constitution of the State was promulgated and at this time, parishes were abolished and counties named in their place. The County is named for William Pitt, the Earl of Chatham, an English nobleman. In 1786, the Chatham Artillery, the nation's oldest active military organization, was organized.

Chatham County is the sixth largest of the State's 159 counties. The County encompasses 438 square miles and still has its early boundaries as laid down in the Revolution. The County is bounded on the north by the Savannah River and South Carolina, on the east by the Atlantic Ocean, the south by the Ogeechee River and Bryan County, and on the west by Effingham County. It is the most easterly county in the State, and has many winding estuaries, rivers, and Sea Islands. It has as its county seat the main port of the State, the historic City of Savannah.

The County has operated under the county-manager form of government since 1985. Policy making and legislative authority are vested in the governing Board of Commissioners consisting of a Chairman and eight Commissioners. The Board's responsibilities include passing ordinances, adopting an annual budget, appointing committees, and hiring the County Manager and the County Attorney. The County Manager is responsible for carrying out the policies and ordinances of the governing county commission, for overseeing the day-to-day operations of the County, and for appointing the heads of the County's departments. The Chairman and County Commissioners are elected for a four-year term with the current term expiring on December 31, 2020.

The County provides a full range of services including public safety, judicial functions, planning and zoning, health and social services, recreational facilities and events, parking, recycling services, cultural events, general administrative services, and the construction and maintenance of highways, public facilities, streets and infrastructure. Public transportation, library and health services are provided by the County's component units.

The County's financial reporting entity incorporates the activities of three component units. The County is considered the primary government. Financial activities of the Chatham County Board of Health, Chatham Area Transit Authority (CAT) and the Live Oak Library System are reported separately from the primary government on the Statement of Net Position and the Statement of Activities. Information on the County's component units can be found in Note I A. of the Notes to the Basic Financial Statements.

The County maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the County Commission and to provide appropriate disclosures to the general public. Activities of the General Fund, special revenue funds and debt service fund are included in the annual appropriated budget. Project-length budgets are prepared for the capital project funds. The level of budgetary control (i.e. the level at which expenditures cannot legally exceed the appropriated amount) is the department level within each fund. The County also maintains an encumbrance accounting system as one method of maintaining budgetary control. Although encumbrances lapse at year end, outstanding encumbrances are reappropriated as part of the following year's budget.

Local Economic Condition and Outlook

Income

From 2014 to 2015, the average weekly wage in the Savannah MSA increased 3.1%. Across all industries in the region, employees earned \$838 per week. In the Savannah metro area in 2015, weekly wages were \$115 lower than those statewide.

In 2015, wage growth in Savannah MSA outpaced statewide wage growth, 3.1% to 3.0%. While wages in Savannah remain below the state average, the purchasing power of those wages is enhanced due to the relatively low cost of living

and housing in the region. This, combined with Savannah/Chatham's high quality of life, implies that workers and employers continue to receive a high return on value for area wages.

SOURCES: Savannah Area Chamber of Commerce, Savannah 2017 Economic Trends

Labor Force / Employment

Unemployment in Chatham County has been slightly lower than Statewide, and higher than the national rate. In 2016, Savannah's employment rose 3.5 percent, or 7,913 jobs. The area's long-term growth prospects are among the best in the nation. The Savannah MSA's employment is estimated to rise 4.0 percent, or 6,600 jobs for 2016.

Manufacturing

The Savannah Metropolitan Statistical Area's manufacturing firms created approximately 21.2% of the area's economic

Gulfstream Aerospace Corporation, maker of Gulfstream private jets

output as measured by Gross Domestic Product, accounting for \$3.6 billion of output in 2015. The number of manufacturing establishments in the Savannah CMSA was 349 firms employing 20,614 workers as of mid-2015. The average weekly wage was \$1,647 for manufacturing establishments in the area.

Tourism

The preservation and restoration of Savannah's downtown historic district and the riverfront has served as the anchor for tourism in the area. Complementing the tourism sector is convention trade. Savannah's Civic Center includes a 2,566 seat theater, an arena with a capacity of 9,600, a ballroom with a capacity of 550 and over 25,000 square feet of exhibit space. In addition, the Savannah International Trade & Convention Center has allowed Savannah to compete for larger conventions, meetings and events.

Savannah's tourism and hospitality industry currently employs over 27,000 people and continues to be one of the largest economic drivers of Savannah. Travel to Savannah remains strong and the city enjoys visitors from all over the world. Most recently, the city was named "A World's Best City for United States & Canada" by Travel & Leisure.

Chatham County has over 15,009 hotel/motel rooms and a variety of restaurants in the downtown area and throughout the Metropolitan Area. During the past ten years, the growth in retail trade and service sectors is attributable to increased tourism and reflects its importance to the County's income.

View of Savannah International Trade & Convention Center (top left) on the Savannah

The Savannah tourism sector has experienced strong growth in 2014. In 2014, over 13.4 million visitors came to Savannah, including 7.6 million overnight visitors and 5.8 million day-trippers. Visitor spending totaled \$2.5 billion, and room tax revenue collections climbed to \$20.7 million, setting another record high.

Tourism and convention business will continue to be one of the fastest growing sectors of Chatham County's economy, reflecting substantial investments in the area's infrastructure, including a large number of new well-situated hotels as

well as the Savannah International Trade and Convention Center.

Transportation

Logistics Today has rated this area "the most logistics friendly city in the nation" - recognizing the area as a superior transportation hub. Here are some of the reasons for the honor:

- Savannah is only a few miles from Interstate 95, as well as at the eastern terminus of Interstate 16 which
 gives the residents speedy access to Atlanta.
- Savannah is only two hours away from the burgeoning Florida market, yet has the cost and business
 advantages of a Georgia location.
- The area enjoys a strategic location on the East coast, but is far more westerly than other coastal cities; located 647 miles due south of Cleveland, Ohio.

CSX Transportation and Norfolk Southern Railroad serve the Chatham County area

 The taxpayers understand the importance of quality infrastructure and improvements by the continued approval of Special Purpose Local Option Sales Taxes (SPLOST).

Amtrak provides rail passenger service to the Savannah area. Freight service is provided by CSX, Georgia Central and Norfolk Southern Corporation. Trucking service is provided by over 100 motor freight carriers to the Savannah area.

Port of Savannah

The County's continued economic progress is based to a large extent on the continuing development of the Port of Savannah. The definition of the Savannah Harbor is "that it comprises the lower 21.3 miles of the Savannah River generally forming a boundary between South Carolina and Georgia and 11.0 miles of bar channel for a total length of

32.3 miles." Savannah is the farthest inland port on the East Coast. This places Savannah within a day's haul over road or rail to many major Midwestern markets, thus greatly reducing the cost of shipping, a definite advantage for the Port of Savannah. Although the Port has a large number of private businesses having docking facilities, the Georgia Ports Authority (GPA) has the largest wharfing facilities for handling cargo for both imports and exports on the East Coast.

The Port of Savannah, home to the largest single-terminal container facility of its kind on the U.S. East and Gulf coasts, is comprised of two modern, deep-water terminals: Garden City Terminal and Ocean Terminal. Together, these facilities exemplify the Georgia Port Authority's exacting standards of efficiency and productivity.

The Port of Savannah is fourth largest port in the United States

The Port of Savannah is the largest and single container terminal in the United States. In FY2016, it handled 3.0 million TEUs (twenty foot container units). FY2016 had the third highest volume in the Port of Savannah's history. The port serves approximately 21,000 companies in all 50 states, more than 75% of which are headquartered outside of Georgia.

Georgia Governor Nathan Deal released a statement July 27, 2015 describing the Port's fiscal 2015 success, "The deepwater Ports of Savannah and Brunswick are cornerstones of Georgia's success and major factors in creating new jobs and prosperity across the state. The wave of economic impact created by our logistics network supports virtually every industry, from manufacturing and agriculture to mining, distribution, technology and transportation."

The Garden City Terminal is owned and operated by the Georgia Ports Authority. The Garden City Terminal is a secured, dedicated container facility, the largest of its kind on the U.S. East and Gulf coasts. The 1,200 acre single terminal facility features 9,693 linear feet of continuous berthing and more than 1.2 million square feet of covered storage. The terminal is equipped with fifteen high-speed container cranes (4 super post-panamax and 11 post-panamax) as well as an extensive inventory of yard handling equipment.

The Ocean Terminal is a secured, dedicated breakbulk facility specializing in the rapid and efficient handling of a vast array of forest and solid wood products, steel, RoRo (Roll-on / Roll-off), project shipments and heavy-lift cargoes. The 200.4-acre general cargo terminal features 9 berths totaling 5,768 linear feet and over 1.4 million square feet of covered storage. The leading imports were iron and steel, machinery, plywood, cocoa bean, granite, lumber, aluminum, and paper products. Kaolin clay, linerboard, machinery, wood pulp, military ordinance, lumber, and foodstuff were the leading exports.

SOURCE: Savannah Area Chamber of Commerce, Savannah 2017 Economic Trends

Military

Fort Stewart and Hunter Army Airfield are the home of the 3rd Infantry Division, and combine to be the Army's Premier Power Projection Platform on the Atlantic Coast. It is the largest, most effective and efficient armor training base east of the Mississippi, covering 280,000 acres including parts of Liberty, Long, Tattnall, Evans and Bryan counties in southeast Georgia.

Hunter Army Airfield is home to the Army's longest runway on the east coast (11,375 feet) and the Truscott Air Deployment Terminal. Together these assets are capable of deploying units such as the heavy, armored forces of the 3rd Infantry Division or the elite light fighters of the 1st Battalion, 75th Ranger Regiment.

Ft. Stewart, located just outside of the Savannah MSA, and Hunter Army Airfield generate sufficient economic activity to warrant inclusion of Liberty and Long counties in the larger Savannah CMSA. Ft. Stewart and Hunter AAF have an annual financial impact of \$4 billion.

Ft. Stewart and Hunter AAF together are one of Coastal Georgia's largest employers. The ratio of military to civilian employees is approximately six to one, with 22,422 officers and enlisted military and 3,891 civilians

Hunter Army Airfield is in honor of Lieutenant Colonel Frank O'Driscoll Hunter, a native of Savannah and a World War I flying ace

employed at both installations. Ft. Stewart accounts for nearly three-fourths of the military employment in the area.

Financial Planning Efforts

The County incorporates financial planning in its decision making and budget processes. The financial policies are reviewed annually to reflect changes in GASB pronouncements or best practices.

The County Commissioners, with assistance from staff, utilize a five year forecasting model for the two main operating funds. The model shows the impact of current year's decisions in "out" years, including the effect on fund balance, as well as the impact of millage rate / service fee changes. This model is also utilized as recurring revenues or expenditures are considered.

Each January the Board receives the Five-Year Capital Improvement Program workbook which outlines the County's CIP needs for the next five years. In February the Board holds workshops to discuss the projects, review project ratings, and discuss funding. This process enables the County to identify long-term capital needs and plan for their implementation.

Each February the Board of Commissioners meets with department heads and elected officials at their annual budget retreat to review Commission goals, department goals, and prioritize budgetary needs. Additional workshops may also occur before final budget adoption in June.

In 2015 the County implemented an employee merit appraisal process. Depending on the individual evaluation, the employees were given between 2% and 3.5% pay increases. This is intended to be an annual process with varying increase amounts.

2016 was the year for county-wide technology improvements. The county implemented a new court system, tax assessment and collection software as well as a new financial management and human resources systems.

Fund Balance Policy

The County has a fund balance retention policy not less than three months of expenditures in the General Fund M&O Fund and the Special Service District Fund. On the governmental fund financial statements, these amounts are shown as Committed Fund Balance in accordance with adopted financial policies. Funds in excess of stated reserve levels can be redirected by the Board for other uses, preferably for non-recurring/one-time expenditures. Details on the policy can be found in the Notes to the Financial Statements page D-22.

Debt Administration

Chatham County's financial condition is demonstrated by the <u>Aa2</u> rating of its bonds by Moody's Investor Services. The County's ratings were reaffirmed in August 2017.

The constitutional debt limit for direct general obligation bonds is 10 percent of the assessed value of taxable property within the County. The constitutional debt limitation applies to all general obligation bonds authorized. Additional general obligation bonds may be authorized if approved by a majority of those voting in an election held for that purpose. Capital leases and contractual obligations are presented in Note III. F and G and constitute a debt, general obligation, or a pledge of the full faith and credit of the County.

Awards & Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report for the fiscal year ended June 30, 2016. This was the thirty-fourth consecutive year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, the County must publish an easily readable and efficiently organized comprehensive annual financial report that satisfies both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The County believes that the 2017 comprehensive annual financial report continues to meet the program's requirements, and is submitting the report to the GFOA to determine its eligibility for another certificate. In addition, the County also received the GFOA's Award for Distinguished Budget presentation for its Adopted Annual Budget for the fiscal year July 1, 2016 – June 30, 2017. The County's budget document was judged proficient in several categories including policy documentation, financial planning and organization.

The Finance Director would like to extend thanks and appreciation to all parties who have provided their support and encouragement to the Department throughout the past year. This includes the County Manager, the County Board of Commissioners, Assistant County Managers, the Internal Audit Director, and the Fixed Assets Coordinator. In addition, thanks and appreciation is extended to all members of the Finance Department in some way involved in the audit process. The hard work and dedication of the Finance Staff is reflected each year in the final report document and in any subsequent awards received.

Sincerely,

Lee Smith County Manager

INDEPENDENT AUDITORS' REPORT MANAGEMENT'S DISCUSSION AND ANALYSIS

INDEPENDENT AUDITORS' REPORT

Chatham County Board of Commissioners Savannah, Georgia 31405

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Chatham County, Georgia (County), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

The County's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Chatham Area Transit Authority and the Chatham County Health Department, which represent 69.1% of the assets and deferred outflows of resources, 68.8% of net position and 79.6% of revenues of the discretely presented component units. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Chatham Area Transit Authority and the Chatham County Health Department is based solely on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2017, and the respective changes in financial position and cash flows, where applicable, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (MD&A) and required supplementary information other than the MD&A as listed in the table of contents C-1 through C-11 and E-1 through E-16 respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The supplementary data, state mandated program information, introductory section and statistical section as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary data and state mandated program information listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary data and state mandated program information listed in the table of contents are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2017, on our consideration of County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

KRT, CPA&P.C.

Savannah, Georgia December 4, 2017

Management's Discussion and Analysis

This Management's Discussion and Analysis (MD&A) section offers you, the reader, a narrative overview and analysis of the financial activities of Chatham County, Georgia for the fiscal year ended June 30, 2017. Please consider the information presented herein with the additional information furnished in the letter of transmittal that can be found beginning on page A-1 of this report.

The MD&A presents both current year and prior year financial information for comparative purposes.

Financial Highlights

- Chatham County's assets and deferred outflows exceeded its liabilities and deferred inflows at June 30, 2017 by \$1 billion (net position). Of this amount, \$12.5 million (unrestricted net position) may be used to meet the County's ongoing obligations to citizens and creditors.
- The County's total net position decreased from the previous year by \$11.9 million. Net position of governmental activities decreased \$10.6 million while net position from business-type activities decreased by \$1.3 million.
- In the governmental funds, the Hurricane Matthew Fund was established due to the hurricane in October 2016. Expenditures exceeded revenues and transfers in for a net decrease to fund balance of \$4.8 million. As of June 30, 2017 this fund had receivable balances of \$6.6 million due from FEMA and GEMA.
- Total non-current liabilities in governmental activities decreased \$19.8 million from the previous fiscal year primarily due to large capital expenditures and the expenditures for the storm debris removal.
- At the fund level, as of June 30, 2017, Chatham County's governmental funds balance sheet reports combined ending fund balances of \$263.4 million, a decrease of \$7.5 million from the previous fiscal year. Of this amount, \$188 million is classified as restricted, \$411,187 is non-spendable and \$75.1 million is classified as unrestricted. Unrestricted fund balance includes \$23.1 million of assigned fund balance, \$56.8 million of committed fund balance, and (\$4.8) million of unassigned fund balance.
- The General Fund reported an unrestricted fund balance of \$50 million. Of the unrestricted fund balance, \$46.8 million was committed primarily for the County three-month reserve policy. \$3.2 million is assigned for capital projects and the remaining \$27,253 was unassigned. Total fund balance increased \$1.2 million to \$50.4 million in 2017.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Chatham County's basic financial statements. The basic financial statements include government-wide and fund financial

statements as well as notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. These statements are described herein:

Government-wide Financial Statements

Government-wide financial statements are designed to provide a broad overview of the finances of Chatham County, Georgia, in a manner similar to a private-sector business. The government-wide statements include a Statement of Net Position and a Statement of Activities. These statements appear on pages D-1 to D-3 of the report.

The Statement of Net Position shows all of the County's assets and liabilities, and the difference between the two is reported as net position. Changes in net position over time may be helpful in indicating an improving or deteriorating financial position.

The Statement of Activities presents information showing how the net position changed during the fiscal year. The statement presents all underlying events that gave rise to the change, regardless of the timing of the related cash flow. Consequently, revenues and expenses are reported in this statement for some items that will only result in cash flow changes in future fiscal periods, such as uncollected taxes and earned but unused vacation leave.

Both statements distinguish functions of Chatham County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

Governmental activities reported in the statements include general government, judiciary, public safety, public works, health and welfare, culture and recreation, housing and development, and interest on long-term debt. Business-type activities in Chatham County include environmental services (solid waste) and other services (sewer utility, parking garage, building safety and regulatory services).

The government-wide statements include the activities of the County and its component units. Financial information for the discretely presented component units is reported separately from the primary government. The discretely presented component units are the Chatham County Board of Health, Chatham Area Transit and the Live Oak Public Libraries.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Like other state and local governments, Chatham County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of Chatham County can be divided into three categories: governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds, presented on pages D-4 to D-9, essentially account for the same functions as those reported as governmental activities in the government-wide financial statements.

However, this set of financial statements focuses on events that produce near-term inflows and outflows of spendable resources and on the balances available at the end of the fiscal year. Such information may be useful in evaluating Chatham County's near-term financing requirements.

Since the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for the governmental activities found in the government-wide financial statements. This will give the reader a better understanding of the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison.

Governmental funds individually presented in Chatham County's statements include nine major funds: General Fund, Special Service District Fund, Hurricane Matthew Fund, Sales Tax I Fund, Sales Tax II Fund, Sales Tax IV Fund, Sales Tax V Fund and Sales Tax VI Fund. Chatham County's remaining governmental funds are combined for presentation in a total column termed "Other Governmental Funds". Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in the report.

Chatham County adopts annual budgets for its General Fund, special revenue funds and debt service fund. Budgetary comparison schedules are provided within the report for these funds. Budgetary comparison schedules for the General Fund and the Special Service District are provided as required supplementary information while schedules for the non-major funds are found elsewhere in the report.

Proprietary Funds

Chatham County maintains and presents two different types of proprietary funds, enterprise and internal service, on pages D-10 to D-12 of this report.

Enterprise funds report, in greater detail, the same information presented as business-type activities in the government-wide financial statements. Major funds include the Solid Waste Fund. Details of other enterprise fund transactions are shown in combining statements presented elsewhere in the report.

Internal service funds represent an accounting mechanism used to accumulate and allocate costs internally for Chatham County government. The County has three internal service funds: Health Insurance Fund, Computer Replacement Fund and Risk Management Fund. The internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements elsewhere in this report. Because these funds predominately benefit governmental activities rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Fiduciary Funds

Chatham County uses fiduciary funds to account for resources held for the benefit of parties outside county government. Although these funds are presented in the fund set of statements, they do not appear in the government-wide financial statements because their resources are not

available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. These funds are presented on pages D-13 to D-14 of this report.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information essential to a full understanding of the data provided in both government-wide and fund financial statements. Notes are presented beginning on page D-18 of the report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's budget process and the County's progress in funding pension and other post-employment benefits to employees and/or retirees. This information begins on page E-1.

The combining statements referred to earlier in connection with non-major funds begin on page F-1. This section includes individual budget to actual schedules for non-major special revenue funds and the debt service fund. Also included are statements for internal service and agency funds. Additional information about the County, which may be of interest to the reader, is found under the Statistical and State Mandated sections of this report.

Government-wide Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. The County's combined net position (governmental and business-type activities) totaled \$1.1 billion as of June 30, 2017. Summary data on net position for the current and prior fiscal year is shown herein:

Chatham County's Net Position (in \$)

The largest portion of Chatham County's net position (79.88%) reflects its investment in capital assets such as land, building, equipment and infrastructure, less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending needs. Any resources needed to repay the debt associated with capital assets must be provided from sources other than the capital assets themselves since the capital assets cannot be liquidated to pay the related liabilities. In recent years, the County has benefited from Special Purpose Local Option Sales Tax referendums to fund many of its capital assets.

Restricted net position (18.27%) represents resources that are subject to external restrictions on use. A significant portion of the County's restricted net position relates to funds restricted by law for the construction of certain capital projects as authorized by public referendum. The remaining category, unrestricted net position (1.86%), may be used to meet the County's ongoing obligations to citizens and creditors. Internally imposed designations of resources are not presented as restricted net position.

At the end of the current fiscal year, the County reports positive balances in all three categories of net position for the government as a whole. Total net position decreased by approximately \$12 million from the prior year. Net investment in capital assets decreased \$6 million during the period to a total of \$860.8 million. Restricted net position increased by \$2.6 million to a year-end balance of \$196.8 million. Unrestricted net position decreased by \$8.6 million and totaled \$20 million as of June 30, 2017.

Governmental Activities – Net position for governmental activities decreased the County's net position by \$10.6 million. Key components of the decrease were:

- Total governmental revenue was \$319.7 million which is an increase from prior year amounts by \$30.9 million. The increase in revenues can be attributed to an increase in capital grants, which increased \$25.2 million. Property taxes also had an increase of \$8 million. Sales and use taxes increased \$4.4 million; other taxes increased \$824,210; investment earnings decreased \$5 million and miscellaneous income increased \$2.6 million.
- As a percentage of total County revenues from governmental activities, tax revenue was 81.1% and program revenues were 17.7%. Charges for various goods and services made up 7% of the total governmental revenue and unrestricted investment earnings represented -.4%.
- Total governmental expenses increased \$39.8 million to \$329 million. The cost of Hurricane Matthew of \$27.5 million accounted for a majority of the increase in governmental expenses. Public safety expenses, the largest category of expenses, were \$95.6 million, an increase of \$4.4 million over prior year expense levels. General government expenses totaled over \$51.8 million, an increase over the prior year by \$4.4 million. The Public Works category had a decline in expenses of \$5.9 million. Expenses exceeded revenues by \$9.3 million. Including transfers out to other funds of \$1.3 million, the total decrease in net position was \$10.6. Total ending net position was \$1.1 billion.

Business-type Activities – Net position for business-type activities decreased \$1.3 million for the fiscal year ended June 30, 2017. Prior to transfers in of \$1.3 million, business-type activities experienced expenditures over revenues of \$2.6 million. Key factors within the business-type activities included:

- Charges for service was \$4.5 million, a decrease of \$275,202 from the prior year.
- Net of transfers, the net position for the business-type activities decreased \$1.3 million for an ending balance of \$16.6 million
- Net position of the solid waste facilities decreased \$652,701 from prior year to end with a balance of \$6 million. This decrease is due to increased spending on storm debris cleanup from tropical storm Hermine and hurricane Matthew.
- Net position in the Sewer fund decreased \$456,435 to a balance of \$8 million due to increased funding of infrastructure assets.
- Net position in the Parking Garage fund and Building Safety and Regulatory Service fund both decreased, \$30,394 and \$122,458 respectively.

The following table presents a comparative summary of the changes in net position for the past two fiscal years:

	Governme	ntal Activities	Business-ty	e Activities		Total	
	2017	2016	2017	2016	2017	2016

Financial Analysis of Chatham County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: Governmental funds provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing Chatham County's financing requirements. In particular, unrestricted fund balance may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

As of June 30, 2017, the County's governmental funds reported combined ending fund balances of \$263.4 million, a decrease of \$7.5 million in comparison to the previous year. Approximately 71.36% of the fund balance or \$188 million is classified as restricted, most of which represents funding for capital projects in the County's special purpose local option sales tax funds which use a legally restricted revenue source for capital project funding. The remaining fund balance classifications are \$411,187 non-spendable and \$75 million unrestricted. Of the unrestricted portions of fund balance, 75.7% is committed, 30.8% assigned and -6.4% unassigned. The Hurricane Matthew fund has a negative fund balance because there is uncertainty when FEMA and GEMA will reimburse the County for the expenditures incurred for debris cleanup.

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, the General Fund's total fund balance was \$50.4 million, an increase of \$1.2 million over 2016. Most of the balance (99.9%) was classified as unrestricted. The County's General Fund at the end of fiscal year 2017 had an assignment of fund balance for future capital projects of \$3.2 milion. The County's General Fund has exceeded the Board of Commissioner's adopted policy goal of achieving a committed reserve fund balance of three month's expenditures. These funds are shown as committed fund balance of \$46.8 million. Unassigned fund balance decreased \$4.5 million from its prior year level of \$4.6 million at year end due to reallocating amounts in committed and assigned as required by financial policies. Financial policies indicate that these unassigned funds could be appropriated for non-recurring or one-time expenditures such as capital funding.

As a measure of the General Fund's liquidity, it may be useful to calculate the ratio of both unrestricted fund balance and total fund balance to total fund expenditures. Unrestricted fund balance represents 29.8% of fiscal 2017 fund expenditures (excluding transfers out), and total fund balance represents 29.9% of that same amount.

Key differences between 2016 and 2017 in the general fund include:

- Property tax revenue increased \$7.5 million over the prior year due to a higher tax digest.
- Transfers out to other funds included a transfer to Child Support fund of \$199,506, a transfer to Hurricane Matthew fund of \$518,728, a transfer to the Capital Improvement Program fund of \$3.9 million, a transfer to Debt Service fund of \$8,340, a transfer to Solid Waste fund of \$1.1 million and a transfer to the Risk Management fund of \$4.3 million. Total amount transferred was \$2.4 million more than the prior year.
- Because of high unrealized investment loss, the net investment income was -\$426,124. This was \$1.6 million less than FY 2016.
- Excess revenues over expenditures before transfers was \$10.8 million.
- The sector with the greatest increase in expenditures was Public Safety, which increased \$3.7 million. This is primarily due to overtime expended to staff the jail.

Special revenue funds are used to account for specific revenue sources and expenditures. The County reports the Special Service District Fund (SSD) as a major fund. The SSD Fund reports the operations and activities of Chatham County's unincorporated area which is subject to a special tax levy. Total fund balance of the SSD Fund was \$10.8 million, an increase of \$321,937 over the prior year's fund balance. 100% of the fund balance is classified as unrestricted. An analysis of the SSD Fund reveals the following factors:

- Revenues were \$31.5 million, an increase over FY 2016 revenues of \$1.1 million.
- Transfers in to the fund were \$874,517 and transfers out were \$4.8 million. Transfers out were to fund the County's unreimbursed costs of Hurricane Matthew and Tropical Storm Hermine and the Capital Improvement Program.
- Decreased spending in Public Safety was due to a renegotiated rate with the City of Savannah, who manages the joint police force.
- \$8.6 million of the unrestricted fund balance is committed for a three-month reserve as required by County policy. The remaining \$2.2 million is assigned for future capital improvements. \$21,596 was non-spendable.

Capital Projects Funds: There are six capital project funds presented as major funds in this report. All of the major capital project funds were the result of voter-approved referendums, the most recent being a referendum held in September 2014 that led to the creation of the Sales Tax VI Capital Project Fund. The September 2014 referendum authorized the imposition and collection of a 1% special purpose local option sales tax beginning October 2014 and ending September 30, 2020. Tax collections will be used for various defined capital projects, and will also provide percentage distributions to municipalities for their stated capital projects.

Revenues in special purpose local option sales tax funds decreased \$1.3 million at the fund level from 2016 due to unrealized losses on investments. Sales taxes were \$3.4 million more than prior year. Intergovernmental revenue decreased \$3.3 million from prior year due to a large reimbursement from the state for the Bay Street widening project in FY 2016. Capital projects in the sales tax funds often take several years to complete and involve a variety of phases so that expenditures in these funds may, by their nature, vary widely from year to year. Schedules detailing SPLOST project expenditures are located in the state mandated section of this report.

General Fund Budgetary Highlights

Budget to actual schedules are provided in the required supplementary information other than MD&A for the General Fund and the Special Service District fund. Individual columns are provided for both the adopted and amended budgets. A column for actual expenditures and a column for differences between final budget and actual expenditures follow these columns. These schedules can be found beginning on page E-1.

Throughout the year Board approval is obtained for any budget adjustments at the department level as well as any adjustments to salaries and wages within the department. During the year the general fund expenditure budget increased \$8.3 million. Significant budget adjustments made during the year included:

- Increase of \$6.4 million for transfers to other funds.
- Increase of \$1.5 million to increase funding of paratransit services provided by Chatham Area Transit.

Significant variances between the final budget and actual amounts are discussed herein:

- Actual revenues exceeded budget \$3.6 million due to increased property tax collections of \$1.9 million and an increase in charges for services of \$1.5 million.
- Investment income was \$776,124 below budget due to unrealized losses on investments.
- Departmental savings produced a positive appropriations variance for the General Fund of \$5.9 million. No departments exceeded their 2017 budget appropriation. Outstanding encumbrances are not included in the budget variances shown.
- Salary savings on vacancies are budgeted as a negative expenditure, however, actual salary savings are recognized in the individual department budgets.

Capital Asset and Debt Administration

Capital Assets - At the conclusion of 2017, the County had invested roughly \$880.4 million in a broad range of capital assets including land, buildings, infrastructure, system improvements, machinery, equipment, parks, roads, bridges, major drainage structures and intangible assets.

Investment in capital assets, net of depreciation, decreased overall by \$10.2 million. The County's financial statements present capital assets in two groups: those assets subject to depreciation such as equipment and operational facilities, and those assets not subject to depreciation such as land, right of ways and construction-in-progress.

Significant expenditures on capital assets and infrastructure improvements for fiscal year 2017 included:

- \$3 million for Industrial Park/ Economic Development
- \$2.6 million for the Bay Street Widening
- \$1 million for the Chatham Area Transit
- \$4.1 million for Johnny DeLoach Road @ Hwy 80
- \$2 million for renovations at the J. Tom Coleman Judicial Courthouse
- \$1.95 million for renovations at the Midtown Health Department Clinic
- \$1.6 million for construction of the west side precinct at Whitefield Avenue
- \$468 thousand for the Diversion Center
- \$336 thousand for improvements at the Henderson Golf Course

The County continues to expend funds as authorized by referendum for capital projects in the Sales Tax I, Sales Tax II, Sales Tax III, Sales Tax IV, Sales Tax V and Sales Tax VI funds. At year end the County had outstanding construction commitments of \$4.4 million. Most of the financing for these construction commitments (92%) will be from special purpose local option sales tax collections.

A summary of the County's capital assets is shown below: Capital Assets at Year-end Net of Depreciation

	Governmental Activities			Business-type Activities					Total

Additional information on the County's capital assets can be found in Note III.C on page D-29.

Debt – The County's long-term contractual debt at June 30, 2017 totaled \$15.4 million, a decrease of \$4.35 million from 2016. Debt service payments for all of the County's obligations were made in accordance with contractual agreements.

Net Pension Liability - The County's proportionate share of the net pension liability as of June 30, 2017 was \$51.1 million, which was included as a non- current liability in the entity wide

statements. This represents a decrease of \$15.8 million due to a rate of return on the investments of 14.1% for the year ended June 30, 2017.

Net OPEB Obligation – The County's Net OPEB liability was \$34.7 million, a decrease of \$332,000. The County is partially funding its annual OPEB obligation through a combination of pay-as-you-go and pre-funding of its obligations. In the most recent valuation, the County's actuary increased the annual employer contribution based on recent experiences and medical trends. The Net OPEB obligation is shown as a noncurrent liability on the government-wide financial statements.

Additional information on Chatham County's long-term obligations can be found in Note III.G.

Currently Known Facts, Decisions, or Conditions

Currently known facts, decisions or conditions that are expected to have a significant effect on the financial position (net position) or results of Chatham County's operations (revenues, expenses and other changes in nets assets) include:

- The County experienced an extreme natural disaster in September 2017. Hurricane Irma, a category 1 hurricane, brushed by the County causing extensive debris damage. It is currently estimated to have a financial impact of roughly \$4 million. After reimbursements from the Federal Emergency Management Agency (FEMA) and the Georgia Emergency Management Agency (GEMA) the expected financial impact to the County is estimated to be \$500,000.
- In July 2017, the City of Savannah chose to cancel an agreement with the County for a joint police force. The County is in process of setting up their own police force. The costs to set up the department are estimated to be about \$2 million and an additional \$15 million for operations. However, this cost is less than the anticipated costs of staying within the agreement and no budget adjustments were necessary. There is currently a dispute with the City for an undetermined amount due to the City for prior year services.

Requests for Information

This financial report is designed to provide a general overview of the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information may be addressed to the Chatham County Finance Director, Chatham County, Georgia, P.O. Box 9297, Savannah, Georgia 31412.

CHATHAM COUNTY, GEORGIA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017

Net change in fund balances - total governmental funds:		\$ (7,490,732)
Amounts reported for Governmental Activities in the Statement of Activities are different because:		
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period. This is the amount by which capital outlays \$22,631,344 is less than depreciation		
\$34,347,817 in the current period.		(11,716,473)
The net effect of various miscellaneous transactions involving capital assets is to increase net position. The County received \$309,898 in capital contributions and recorded (\$129,354) related to disposals.		180,544
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the Statement of Activities when earned.		
Deferred inflows of resources		6,802,617
Governmental funds report debt proceeds as current financial resources. In contrast, the Statement of Activities treats such issuance of debt as a liability. Governmental funds report repayment of debt principal as an expenditure, In contrast, the Statement of Activities treats such repayments as a reduction in long-term liabilities.		
This is the amount by which payments exceeded proceeds.		4,964,797
Governmental funds report the effect of bond issuance costs and discounts when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. Interest is recognized as an expenditure in the governmental funds when it is due. In the statement of activities, interest expense is recognized as it accrues, regardless of when it is due. The net effect of these differences		
follows: Amortization of bond discounts/premiums	\$ 11,279	
Interest expense - debt obligations	40,321	51,600
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:		
Compensated absences	\$ 417,232	
Claims and judgements	(1,412,667)	(995,435)
In the statement of activities, pension expense represents the change in net pension liability from the beginning of the year to the end of the year. In the governmental funds, however, pension expense is measured by the amount of financial resources used (amount actually paid). This is the amount by which pension contributions paid		
in the current period exceeded the change in net pension liability		1,414,962
The current year's increase in the net OPEB liability creates a balance sheet item while increasing net expenses of the functions on the governmentwide statements		319,130
Internal service funds are used by management to charge the costs of certain activities such as insurance to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities.		(4,178,371)
		 (., 0, 0, 1)
Change in net position of governmental activities		\$ (10,647,361)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Chatham County, Georgia are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The County exclusively follows the standards set forth by the GASB and has implemented accounting standards as set forth in GASB Statement Number 74 and 77. The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Reporting entity

The County is a political subdivision of the State of Georgia and is governed by a nine member Board of County Commissioners. Eight members represent a geographical district within the County while the Chairman represents the County at large. There are additional officials elected countywide. State law pertaining to county government provides for the independent election of these county officials. The officials are all part of the County's legal entity. These elected officials are the Sheriff, Tax Commissioner, State Court Judges, Magistrate Court Judge, Probate Court Judge, and Superior Court Clerk. The offices of the independently elected officials are not separate from the County and therefore are reported as part of the primary government.

The State constitution and State law pertaining to County government provide for the independent election of the Superior Court Judges and the District Attorney. The cost of operations of the Superior Court Judges and the District Attorney Offices is shared with the State of Georgia. Only that portion of the cost for which the County is responsible is reported in these financial statements.

On January 31, 2005, the County entered into an intergovernmental agreement with the Georgia Circuit Public Defender Office of the Eastern Judicial Circuit to provide for criminal indigent defense. Under the agreement, the County reimburses the State for the salaries and operating costs for twenty-seven employees. In addition, the County supplements the salaries of the Chief Public Defender and four Level IV Public Defenders. Only the portion of the costs for which the County is responsible is reported in these financial statements.

Generally accepted accounting principles define the reporting entity and provide parameters to use in determining which potential component units should be included in a primary government's financial statements. Inclusion is based on financial accountability or the fact that exclusion would make the financial statements misleading or incomplete. The financial reporting entity consists of (a) primary government, (b) organizations for which the primary government is financially accountable and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The nucleus of a financial reporting entity usually is a primary government; however, a governmental organization other than a primary government (such as a component unit, a joint venture, a jointly governed organization, or another stand-alone government) serves as the nucleus for its own reporting entity when it issues separate financial statements.

The County has met the criteria for classification as a primary government. The County has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. All funds, organizations, institutions, agencies, departments, and officials that are not legally separate of the primary government, for financial reporting purposes, are part of the primary government and are included in the financial statements of the County.

1. Discretely Presented Component Units.

<u>Chatham Area Transit Authority</u> (Authority) - Financial information for the Authority is reported as part of the primary government as a major discretely presented component unit. The Authority's majority governing body is appointed by the governing body of the primary government and there is a financial benefit/burden relationship between the County and the Authority. The County Commission must approve the millage rate which has significant impact on the programs and level of service provided by the Authority. Complete financial statements of the Chatham Area Transit Authority can be obtained directly from the administrative offices at Chatham Area Transit Authority, P. O. Box 9118, Savannah, Georgia 31412.

<u>Live Oak Public Libraries</u> – The Libraries meet the requirements for inclusion as a discretely presented non major component unit; therefore, its financial information is reported together with, but separately from, the primary government in the government-wide financial statements. The County's Board of Commissioners appoints a majority of the Libraries' board members and provides a majority of funding for the operations of the Libraries; therefore, the Libraries are deemed to have a financial benefit/burden relationship with the County. Complete financial statements can be obtained directly from Live Oak Public Libraries, 2002 Bull Street, Savannah, Georgia 31401.

<u>Chatham County Board of Health</u> - The Board of Health meets the requirements for inclusion as a discretely presented non major component unit under a determination made by the State of Georgia; therefore, its financial information is reported together with, but separately from, the primary government as a discretely presented component unit. The Board of Health is a legally separate entity with the County appointing a voting majority of the entity's Board and the ability to impose its will on the Board. Complete financial statements can be obtained directly from Chatham County Board of Health, P.O. Box 14257, Savannah, Georgia 31416-1257.

2. Joint Venture

Under Georgia law, the County is a member of the Coastal Regional Commission of Georgia (CRC) and is required to pay annual dues. During the year ending June 30, 2017, the County paid \$113,352 in such dues. Membership in a CRC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the CRC in Georgia. The total council membership is 39, inclusive of 5 members from Chatham County. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a CRC. Separate financial statements may be obtained from Coastal Regional Commission of Georgia, 1181 Coastal Dr. SW, Darien, Georgia 31305.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. Government-wide statements focus on the County as a whole, and primary activities are categorized as either governmental or business-type. In the government-wide Statement of Net Position, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reflected on a full accrual, economic resource basis, incorporating long-term assets and receivables as well as long-term debt and obligations. The government-wide Statement of Activities reflects both the gross and net cost by functional category (general government, judiciary, public safety, public works, etc.). Gross expenses (including depreciation) are reduced by related program revenues, charges for services, and operating and capital grants. Program revenues are directly associated with the source function or business-type activity. Program revenues include i) charges for services, ii) operating grants and contributions, and iii) capital grants and contributions. Operating grants include operating-specific and discretionary grants while the capital grants reflect capital-specific grants. Charges for services include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a function or segment. The net cost (by function or

business-type activity) is normally covered by general revenue (property, sales and other taxes, intergovernmental revenues, investment income, etc.).

While activities of discretely presented component units are reported in the County's government-wide financial statements, separate columns are utilized so that the activities of these component units can be viewed independently from those of the primary government.

The government-wide focus is more on the sustainability of the County as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds are eliminated or reclassified in the government-wide financial statements. Eliminations have been made in the Statement of Activities to remove the "doubling-up" effect of internal service fund activity. Interfund services provided and used are not eliminated in the process of consolidation. Also, the County allocates indirect cost to each of its funds. The indirect costs are eliminated in the government-wide financial statements.

Fund financial statements focus on individual major funds in either the governmental or business-type categories. Non-major funds (by category or fund type) are summarized into a single column.

Major governmental funds in the fund financial statements are presented on a current financial resources measurement focus and modified accrual basis of accounting. This is the manner in which these funds are budgeted. This presentation is deemed most appropriate to (a) demonstrate legal and covenant compliance, (b) demonstrate the source and use of liquid resources, and (c) demonstrate how the County's actual experience conforms to the budget or fiscal plan. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements, reconciliation is presented following each statement. The reconciliation briefly explains the adjustments necessary to transform the fund based financial statements into the governmental column of the government-wide presentation.

Internal service funds (which traditionally provide services primarily to other funds of the government) are presented in summary form as part of proprietary fund financial statements. Since the principal users of the internal services are the County's governmental activities, financial statements of internal service funds are consolidated into the governmental column when presented at the government-wide level. To the extent possible, the cost of these services is reflected in the appropriate functional activity (general government, judiciary, public safety, public works, etc.).

The County's fiduciary funds are presented in the fund financial statements by type (trust and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements.

C. Basis of Presentation

The financial transactions of the County are recorded in individual funds. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues, and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

Major funds are separately presented within the basic financial statements. Major funds represent the government's most important funds and are determined based on percentages of assets, liabilities, revenues, and expenditures/expenses. Governments may also choose to report other funds as major funds if the fund is

particularly important to financial statement users. The non-major funds are combined in a column in the fund financial statements and detailed in the combining section.

The County uses the following fund types:

1. Governmental Funds:

The focus of governmental fund measurement (in the fund financial statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the County:

- **a. General Fund** is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.
- **b. Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The major fund (Special Service District) is used to account for special levy ad valorem taxes, its major revenue stream, and for other activities for the unincorporated area of the County.
- **c. Debt Service Funds** are used to account for the accumulation of funds for the periodic payment of principal and interest on governmental contractual obligations.
- **d. Capital Projects Funds** are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Business-type/Proprietary Funds). The County displays six major funds, Sales Tax I, Sales Tax II, Sales Tax III, Sales Tax IV, Sales Tax V and Sales Tax VI. These funds account for the proceeds of a special one cent sales tax adopted by referendum and related expenditures for roads, drainage and other improvements. Although the Sales Tax I and Sales Tax II funds did not meet the fiscal criteria for a major fund in 2017, the County chose to continue their presentation as major funds due to the high level of public interest in their activities.

2. Proprietary Funds:

Proprietary Funds are reported using the economic resources measurement focus. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the County:

- **a. Enterprise Funds** are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges, or (c) has a pricing policy designed for the fees and charges to recover similar costs. The major funds (Chatham Area Transit Authority and Solid Waste Management Fund) account for business-type activities for transportation services and solid waste collection and disposition.
- **b. Internal Service Funds** are used to account for the financing of goods or services provided by an activity to other departments or funds of the County on a cost-reimbursement basis. The County's internal service funds are used to account for the financing of certain risk management services, such as health insurance claims, worker's compensation claims, and catastrophic claims that are not covered by insurance. The County also maintains an internal service fund for computer replacement.

3. Fiduciary Funds:

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support County programs. The reporting focus (economic resources measurement focus) of trust funds is upon net position and changes in net position. The funds employ accounting principles similar to proprietary funds. Since agency funds report only assets and liabilities, they do not have a measurement focus; however, receivable and payable balances in the agency funds are recognized on the accrual basis of

accounting. Trust and agency funds are used to account for activities that are custodial in nature. The County has one pension trust fund that accounts for the retirement benefits of the County's employees. Effective July 1, 2007, transactions related to retiree healthcare and other post-employment benefits, including activities related to the pre-funding of retiree healthcare, were recorded in the OPEB Trust Fund. There are ten agency funds, nine of which account for the receipts and disbursements of funds by the tax commissioner and various clerks of court, and the tenth is the flex benefit plan, which accounts for employee withholdings for dependent and medical care under section 125 of the IRS code.

4. Non-Current Governmental Assets/Liabilities:

Information on the County's capital assets and long-term debt is incorporated into the Statement of Net Position and also disclosed within these notes.

D. Basis of Accounting

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual:

All proprietary, internal service, pension trust, and agency funds are accounted for using the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual:

All governmental funds are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, usually 60 days. Revenues considered susceptible to accrual are property taxes, charges for services, and investment income. In applying the "susceptible to accrual" concept to intergovernmental revenues, the provider should recognize liabilities and expenses and the recipient should recognize receivables and revenue when the applicable eligibility requirements, including time requirements, are met. Resources transmitted before the eligibility requirements are met should, under most circumstances, be reported as advances by the provider and a liability by the recipient. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt is recognized when due.

E. Assets, Liabilities, and Fund Equity

1. Deposits and Investments

The County has defined Cash and Cash Equivalents to include cash on hand, demand deposits, and cash with fiscal agent. Additionally, each fund's equity in the County's investment pool is considered to be a cash equivalent since the funds can deposit or effectively withdraw cash at any time without prior notice or penalty. Investments are stated at fair value (quoted market price or the best estimate thereof).

The County operates a linked zero balance cash system with four zero balance accounts. All deposits are made in the collection account, and all disbursements are made from the accounts payable account, the jurors account and the payroll account. The bank each day automatically moves all funds from the collection account (master funding account) to fund the disbursement accounts. The County allocates investment earnings of the cash and investment pool to each participating fund on a monthly basis in accordance with the funds' average equity balance in the pool for the month.

2. Receivables

In the fund financial statements, material receivables in governmental funds include revenue accruals such as property taxes, grants, and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible, but not available, are included in the Deferred Inflows of Resources section of the balance sheet on the fund financial statements in accordance with the modified accrual basis, but are not included on the government-wide financial statements in accordance with the accrual basis. Accounts receivable comprise the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

The major receivable for the County is property taxes receivable. Property taxes are levied on all taxable real, public utilities, and personal property (including vehicles) located within the County. Assessed values for property tax purposes are determined by the Chatham County Board of Tax Assessors for all property except public utilities and motor vehicles. Assessed value is set at 40% of market value. Public utility and motor vehicle assessed values are established by the State of Georgia. Property taxes are levied by the last quarter of the year in which they are assessed, or as soon after as deemed practical. Taxes are due and payable when levied. Chatham County may place liens on property once the related tax payments become delinquent. A lien on such property becomes enforceable 60 days after final notification on delinquency of property taxes. Property tax millage rates are usually adopted in July and tax bills are rendered by September 15.

The property tax calendar is as follows:

Beginning of fiscal year for taxes	January 1, 2017
First installment real property tax bills rendered	
(based on prior year digest)	April 1, 2017
First installment real property tax payment due	June 1, 2017
Millage rate adopted by resolution	June 23, 2017
County tax digest approved by the State of Georgia for collection	August 1, 2017
Second installment real and personal property tax bills rendered	September 15, 2017
Second installment real property tax payment due	November 15, 2017
Tax sales 2009-2016 delinquent real property tax	
and other assessments	Various

3. Inventories and Prepaid Items

Inventories are stated at cost on the basis of "first in, first out" (FIFO) method of accounting. Inventory in the General and Enterprise Funds consists of expendable supplies held for consumption. Costs are recorded as expenditures at the time inventory is used (consumption method). Reported inventories in the General Fund are equally offset by nonspendable fund balance, which indicates that the inventories do not constitute "available spendable resources" even though they are a component of net current assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

4. Restricted Assets

Governmental Funds – Chatham Emergency Management Agency restricted funds were generated from contributions by private industry for use in a separate local emergency planning commission in the amount of \$16,185. Other funds were restricted in the Land Disturbing Activities Ordinance Fund for tree planting and replacement programs in the amount of \$107,372.

Enterprise Funds - The Water and Sewer Fund maintains a separate account for the purpose of segregating funds received for customers' security deposits. Refunds of customer deposits are paid from this account. Liabilities payable from restricted assets are reported separately to indicate that the source of payment is the restricted assets. The Solid Waste Management Fund maintains a separate fund to account for the provision of solid waste collections, transportation, and disposal for the residents of the unincorporated area of Chatham County. This fund provides for the operation of the County's landfills, which were separated from the Public Works Department in 1992 to comply with state accounting and reporting requirements. Solid Waste Fund cash has been restricted for Solid Waste Management activities under the Georgia Solid Waste Management Act and for financial assurance of closure and postclosure costs.

Trust and Agency Funds - Restricted cash and investments are held by various financial institutions in the County's name for the County's Pension Trust Fund and OPEB Trust Fund.

Additional data on the County's cash and investment policies and risk concentrations is found in Note III. A.

5. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the governmental or business-type activities columns in the government-wide financial statements. Capital assets, other than infrastructure assets, are defined by the government as assets with an initial individual cost of \$5,000 or more and an estimated useful life in excess of two years. Infrastructure and building improvement assets are capitalized at cost starting at \$50,000. Significant interest costs incurred during construction are recorded as part of the asset's cost. In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities) the County included all such items regardless of their acquisition date or amount. The County was able to estimate the historical cost for the initial reporting of those assets through back trending (i.e. estimating the current replacement cost of the infrastructure to be capitalized and using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year). As the County constructs or acquires additional capital assets each period, including infrastructure assets, they are capitalized and reported at historical cost. In the case of assets received through donations and from a service concession arrangement, the government values these capital assets at the acquisition value. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate.

The County has capitalized networks/subsystems for the following major infrastructure groups: roads, right of ways, bridges, drainage (open systems), drainage (closed systems), and sidewalks. A capitalization threshold of \$21 million was used to determine whether a network/subsystem would be incorporated for retroactive infrastructure reporting.

Capital assets of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Building & Improvements	20-50
Public Domain Infrastructure	20-50
System Infrastructure	20-50
Intangibles	7-15
Service and Transit Vehicles	5-20
Office Equipment	4-40
Furniture and Fixtures	5-10

6. Long-Term Liabilities

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs during the current period. The face amount of debt issued is reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

7. Claims, Judgments, and Compensated Absences

The liability for claims and judgements and compensated absences has been accrued. The total liability for proprietary funds is recorded in the proprietary fund type.

The County's policy is to permit employees to accumulate earned but unused vacation and sick pay benefits and compensatory time. The accumulated benefits will be liquidated in future years as employees elect to use them. In the normal course of business, all payments of these accumulated benefits will be funded from appropriations in the year they are to be paid. All compensated absences are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

In accordance with the Fair Labor Standards Act, employees may receive compensatory time off in lieu of overtime pay. Unused compensatory time may be banked up to 480 hours for law enforcement and emergency response personnel and 240 hours for other personnel. Non-exempt employees will be paid for accumulated compensatory time at separation. The potential liability for compensatory time at June 30, 2017 was \$86,006.

8. Equity Classifications

Fund equity at the governmental fund financial reporting level is classified as "fund balance". Fund equity for all other reporting is classified as "net position".

Fund balance is reported in the governmental funds financial statements and generally represents the difference between current assets and current liabilities. Fund balance classifications represent a hierarchy based primarily on the extent to which the County is bound to honor constraints on specific purposes for which amounts in those funds can be spent. The Board of Commissioners has formally adopted a Policy on Fund Balance Classification & Disbursement of Constrained Amounts. The policy defines categories within overall fund balance and outlines authorizations for appropriating and classifying amounts. In accordance with this policy, fund balances are classified as follows:

- a. Nonspendable Fund balances are classified as nonspendable when amounts cannot be spent because they are either i) in nonspendable form or ii) they are legally or contractually required to be maintained intact. The County includes items that are not expected to be converted to cash such as inventories and prepaid amounts. Based on a review of each fund's accounts, the Finance Director has been authorized by the Board to determine the nonspendable amount of fund balance for annual disclosure purposes.
- b. Restricted Fund balances are reported as restricted when their use is restricted for specific purposes including i) constraints on funds externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or ii) constraints imposed by law through constitutional provisions or enabling legislation. Based on a review of each fund's accounts, the Finance Director has been authorized by the Board to determine the restricted amount of fund balance for annual disclosure purposes.

- c. Committed Fund balances are reported as committed if their use is for a specific purpose as approved by formal action on the Board of Commissioners (majority vote). Amounts committed cannot be used for any other purpose unless the Board of Commissioners removes or changes the specific use by approving such action through resolution at a Commission meeting. Budget resolutions are considered a plan for specific use.
- d. Assigned Fund balances are reported as assigned when constrained by the County's intent to use the funds for specific purposes that are neither restricted nor committed. Assigned fund balance includes i) governmental funds, other than the General Fund, that are not classified as nonspendable, restricted or committed, and ii) amounts in the General Fund intended for a specific use identified by either the County Manager or Finance director, and iii) amounts appropriated to eliminate a projected budget deficit in the subsequent year. Based upon a review of each fund's accounts, the Finance Director has been authorized by the Board in the county's financial policies on fund balance classification, to determine the assigned amount of fund balance for annual disclosure purposes.
- e. **Unassigned** Fund balances are reported as unassigned when the balances do not meet any of the above four criterion for classification. The County reports positive unassigned fund balance in only the General Fund. Negative unassigned fund balances may be reported in all governmental funds.

For purposes of fund balance disbursement, unless otherwise approved by the Board of Commissioners, the County will expend restricted fund balance when expenditure is incurred for which both restricted and unrestricted fund balance is available. Next the County will expend committed fund balance when expenditure is paid for which unrestricted fund balance is available. The County would next disburse fund balance assigned for purposes of the fund before disbursing other assigned fund balance amounts. In the General Fund, the County would disburse unassigned fund balance prior to disbursing fund balance committed for financial policy reserve levels or amounts assigned to eliminate subsequent year's budget deficit.

Net position represents the difference between assets and liabilities. There are three classifications of net position:

- a. Net investment in capital assets consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. **Restricted net position** consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions, or laws or regulations of other governments, or (2) law through constitutional provisions or enabling legislation.
- c. **Unrestricted net position** consists of all other net positions that do not meet the definition of "restricted" or "net investment in capital assets".

F. Revenues, Expenditures, and Expenses

1. Operating and Non-operating Revenues and Expenses

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and or services. Also included are all revenues and expenses not related to capital and related financing, non-capital financing, or investing activities. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, the County's policy is to use restricted resources first, then unrestricted resources as needed.

2. Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for governmental activities. Administrative overhead charges are made to various functions and are included in direct expenses. In the fund financial statements, governmental fund expenditures are classified by character i.e. current (further classified by function), debt service, and capital outlay. Proprietary fund expenses are classified as operating and non-operating. In the fund financial statements, governmental funds report expenditures of current financial resources. Proprietary funds report expenses relating to use of economic resources.

3. Interfund Transactions

Interfund transactions are reflected as either loans, services provided, reimbursement, or transfers. Loans are reported as receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide columnar presentation.

4. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that may affect the amounts reported in the financial statements and the related notes. Accordingly, actual results could differ from these estimates.

5. Internal Service Fund Consolidation

Internal service fund revenues and expenses are consolidated as part of governmental activities. Although these funds provide services to both governmental and business-type activities, the proportionate share to business-type activities is immaterial.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget

Budget to actual expenditures are monitored by the County on an ongoing basis. Biweekly agenda items and quarterly financial reports are presented to the Board of Commissioners. Budget transfers or amendments related to cost overruns may be proposed up to the amount of available contingency funds.

B. Fund Deficits

The Hurricane Matthew Fund had a Fund deficit of \$4,853,091. The deficit will be funded with reimbursements from FEMA and GEMA. The reimbursements were not received during the County's revenue recognition period.

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

General: The County maintains a cash and investment pool utilized by the majority of the County's funds. The six major capital project funds – Sales Tax I, Sales Tax II, Sales Tax III, Sales Tax IV, Sales Tax V, and Sales Tax VI – maintain their own individual bank accounts and investments. The cash and investments of the Chatham County Employees' Retirement Plan (CCERP) are also held separately and reported within the Pension Trust Fund. Cash and investments intended for payment of other post-employment benefits are held separately and reported in the Other Post-Employment Benefit Trust Fund. The investments for the general fund, sewer and capital project funds are reported in the primary government investments.

Deposits: Custodial Credit Risk for deposits is the risk that, in the event of bank failure, a government's deposits may not be returned to it. At June 30, 2017 all of the County's deposits were either covered by federal depository insurance or collateralized through the Georgia Public Funds Pledging Pool, a multiple financial institution collateral pool administered by the Georgia Bankers Association for the State of Georgia.

Georgia law governs collateral requirements and forms of collateral under O.C.G.A. Section 45-8-12 which is incorporated by reference within the County's Investment Policy. The County has no custodial credit risk policies requiring additional collateral. In summary, Georgia law states:

- All deposits shall be collateralized within 10 days of deposit by a surety bond, a guarantee of insurance, or collateral.
- The face value of any surety bond, guarantee of insurance, or collateral shall be at least 110% of the public funds being secured, net of deposit insurance.
- If a depository elects the pooled method (O.C.G.A. Section 45-8-13.11), the aggregate market value of pledged securities may not be less than 110% of the daily pool balance.

Authorized security for deposits enumerated under law includes surety bonds, FDIC insurance, obligations of the United States or the State of Georgia, obligations of Georgia counties or municipalities, bonds of any Georgia public authority, industrial revenue bonds of any Georgia development authority, and obligations of any subsidiary corporation of the United States government fully guaranteed by the United States (such as Federal Home Loan Bank, Federal National Mortgage Association, etc.).

Investments:

In its investment of both public and pension trust funds, the County follows state statutes and adopted investment policies. As of June 30, 2017 the investments of the Primary Government, OPEB and the CCERP were:

			_	Maturities in Years			
Type of Investment	Average Credit Rating	Fair Value Measurement	Fair Value	Less than 1	1-3	4-5	Greater than 5

Under state law, investments of the County's public funds may be placed in obligations of (or obligations guaranteed by) the U.S. government, obligations of agencies of corporations in the U.S. government, obligations of any state or any political subdivision of any state, certificates of deposit or time deposits of financial institutions with deposits insured by FDIC, prime bankers acceptances, repurchase agreements, and the Georgia Fund 1. During the year the County invested public funds in certificates of deposits and time deposits of local banks, U.S. Government obligations, obligations of agencies guaranteed by the U.S. Government, obligations of the state of Georgia political subdivisions, and the Georgia Fund 1.

State law also governs the investment of retirement funds (O.C.G.A. 47-20-84) and post-employment benefit funds (O.C.G.A. 47-20-10h and 47-20-10.1) and limits investments to maximum concentrations by investment category (at cost). The County's defined benefit pension plan qualifies as a "large retirement system", a designation which allows the plan additional investments in equity securities.

The Georgia Fund 1 is a pooled investment where local government funds may be consolidated with state funds. Georgia Fund 1 was created under O.C.G.A. 36-83-8 and is managed by the Office of the State Treasurer. The Georgia Fund 1 or the Primary Liquidity Portfolio's primary objectives are safety of capital, investment income, liquidy and diversification while maintaining principal. The Pool operates and reports to participants on an amoritized cost basis. The income, gains and losses, net of administration fees of the pool are allocated to participants monthly on the ratio of the participants' share of the total funds in the pool based on the participant's average daily balance. This method differs from the fair value method used to value investments in these financial statements because the amortized cost method is not designed to distribute to participants all unrealized gains and losses in the fair values of the pool's investments.

Deposit and investment transactions are subject to a variety of risks. The County's adopted investment policies seek to promote the safety of principal, provide adequate liquidity for operational needs, earn market rates of return on investments consistent with liquidity needs and investment quality, and conform to legal requirements.

Interest rate risk is the risk that the changes in interest rates will adversely affect the value of an investment. The County's Investment Policy states that the County will structure its portfolio to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities prior to their maturity. The Policy also emphasizes the purchase of shorter term or more liquid investments. The Policy does not place formal limits on investment maturities.

Policies of the CCERP limit short-term investments to specified securities: money market accounts, direct obligations of the U.S. Government with maturities of 1 year or less, and commercial paper maturing within 270 days that are rated A-1 or higher by Standard & Poor 's or P-1 by Moody's Investor Services.

Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The County's Investment Policy seeks to minimize credit risk through diversification of investments within the choices allowed under state statutes. CCERP policies minimize credit risk by setting a target average credit quality of "A" or higher for the bond portfolio. Investments in all corporate fixed income securities are limited to an investment grade of "BAA" or higher as rated by Moody's or "BBB" or higher as rated by Standard & Poor's.

All of the County's investments in U.S. Treasury and Agency securities carry the explicit guarantee of the U.S. government. U.S. Agency securities underlie repurchase agreements.

Fair Value Measurements are categorized within the fair value hierarchy established by generally accepted accounting principles. Fair value is the exchange price that would be received for an asset (exit price) in the principal or most advantageous market for an asset in an orderly transaction between market participants on the measurement date. The standard establishes a hierarchy of inputs used to measure fair value that prioritized the inputs into three categories as follows:

Level 1 – inputs utilize quoted prices (unadjusted) in active markets for identical assets that the County has the ability to access.

Level 2 – inputs are based on quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable.

Level 3 – inputs are based on inputs that are unobservable for the asset.

Foreign currency risk is the risk that exchange rates may affect the valuation of an investment. The Pension Plan has investments in one international equity fund (various currencies) subject to foreign currency risk. The fair value of these funds as of June 30, 2017 was \$22,568,044. State law limits the Pension Plan's investment in foreign equities, and the County has not adopted additional policies. The General Fund has investments in one international equity fund (various currencies) subject to foreign currency risk. The fair value of these funds as of June 30, 2017 was \$5,927,548.

Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. Disclosures are required for any issuer that represents 5% or more of total investments, exclusive of mutual funds, external investment pools, and investments issued or guaranteed by the U.S. government. The County's Investment Policy places maximum limits on investment of public funds as follows:

20%
20%
100%
80%
50%
25%
25%
100%
100%
25%
100%
10%

*CMOs must pass the FFIEC (or surviving and mutually agreed upon equivalent) tests one and two. In addition, the CCERP's Investment Policy seeks a diversified portfolio of fully negotiable, equity, fixed income, and money market securities, with the following maximum investment limits, stated at cost:

Equity securities	55%
Foreign equity assets	15%
Domestic bonds (including TIPs)	30%

Prohibited investments are also specified in the policy.

The County's Pension Board follows State law in its investment of assets of the OPEB Trust Fund. Current investments are divided between index funds concentrating in fixed income and domestic equities.

Deposits and investments are reconciled between the financial statements and note disclosure as follows:

Basic financial statements:	
Cash and investments	\$ 295,415,730
Restricted cash	5,031,477
Trust and agency funds	329,684,943
Total	\$ 630,132,150
Notes to financial statements:	
Cash on hand	\$ 87,538
Deposits	88,139,393
Investments	541,905,219
Total	\$ 630,132,150

B. Receivables

Receivables as of year-end for the government's individual major funds and non-major, internal service, and fiduciary funds in the aggregate including the applicable allowance for uncollectible accounts, are as follows:

			Inter-	Gross	Allowance for	Net
Receivables:	Taxes	Accounts	governmental	Receivables	Uncollectibles	Receivables
General	\$ 9,701,086	\$ 208,517	\$ 2,018,721	\$11,928,324	\$ (156,000)	\$ 11,772,324

Furniture & Equipment	(974,780)	(125,440)		(1,100,220)
Total Accumulated Depreciation	(9,420,117)	(927,214)		(10,347,331)
Governmental Activity Capital Assets, Net	\$26,050,728	\$ (927,214)	\$ -	\$25,123,514

The County has active construction projects as of June 30, 2017. At year-end the government's major commitments are as follows:

	Contract	
	Balance	
	Jun	e 30, 2017
Sales Tax I	\$	1,030,866
Sales Tax II		25,750
Sales Tax III		819,456
Sales Tax IV		1,075,060
Sales Tax V		1,306,725
Sales Tax VI		154,129
Nonmajor Governmental		1,621,212
Total	\$	6,033,198

At fiscal year end, the County has encumbered amounts that will be honored in the subsequent fiscal year for the following major governmental funds:

General Fund	\$ 445,071
Special Service District	 116,653
Total	\$ 561,724

D.Interfund receivables, payables and transfers

Interfund receivable and payable balances at June 30, 2017 are as follows:

Receivable Fund	Payable Fund	Amount
General Fund	Hurricane Matthew	\$5,653,466
General Fund	Nonmajor Governmental	1,147,254
Special Service District	Nonmajor Governmental	17,342
Total		\$6,818,062

These balances represent loans between the borrower fund and the lender fund. These balances resulted from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system, and 3) payments between funds are made. Interfund receivables and payables are reported in the fund financial statements; however, they are eliminated in the government-wide financial statements if the interfund loan is between governmental funds.

A summary of interfund transfers by fund type is as follows:

Receiving Fund:	Paying Fund:	Amount
Major Funds		
General Fund	Special Service District	\$217,938
General Fund	Nonmajor Governmental	205,127
Special Service District	Nonmajor Governmental	874,517
Hurricane Matthew	General Fund	518,726
Hurricane Matthew	Solid Waste	1,189,260
Hurricane Matthew	Enterprise	2,404
Hurricane Matthew	Special Service District	2,182,512
Solid Waste	General Fund	1,100,000
Solid Waste	Special Service District	600,000
Solid Waste	Nonmajor Governmental	450,000
Nonmajor Funds		
Special Revenue	Nonmajor Governmental	25,000
Special Revenue	General Fund	199,506
Capital Project Fund	General Fund	3,900,640
Capital Project Fund	Special Service District	1,010,000
Capital Project Fund	Nonmajor Governmental	700,000
Debt Service Fund	General Fund	8,370
Debt Service Fund	Nonmajor Governmental	1,256,137
Enterprise Fund	Special Service District	370,000
Internal Service Fund	General Fund	4,274,093
Internal Service Fund	Special Service District	415,000
Fiduciary Fund	Internal Service Fund	5,000,000
Total		\$ 24,499,230

Interfund transfers are used to 1) move revenues from the fund where they are authorized for collection by statute or budget to the fund where statute or budget requires expenditure, 2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and 3) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers are eliminated in the government-wide financial statements if the interfund transfer is within the governmental fund group.

E. Short-term Debt

Chatham Area Transit Authority, a discretely presented component unit, has a \$1,500,000 line of credit agreement with a bank for working capital with a maturity date of April 30, 2018. The bank made advances on the line of credit in order to provide the Authority with operating funds throughout the year. Interest is payable monthly at LIBOR market index rate plus 1.50%.

A schedule of changes in short-term debt follows:

	Beginning			Ending
Fund:	Balance	Increases	Decreases	Balance
Chatham Area Transit				
Authority Enterprise Fund	\$ 1,500,000	\$1,500,000	\$(1,500,000)	\$ 1,500,000
Total	<u>\$ 1,500,000</u>	\$1,500,000	\$(1,500,000)	\$ 1,500,000

F. Capital Leases

The County has entered into a lease agreement as lessee for financing the acquisition of radio and communication equipment. This lease agreement qualifies as a capital lease for accounting purposes. As of June 30, 2017, the net book value for the leased equipment was \$1,826,521.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2017 were as follows:

Year Ending	Governmental	
June 30		Activities
2018	\$	655,730
2019		655,730
2020		655,730
2021		655,730
2022		601,087
Total minimum lease payments		3,224,007
Less: amount representing interest		(121,189)
Present value of minimum lease payments	\$	3,102,818

G. Long -term debt

Schedule of Contractual Obligations

		Average	Original	Amount
Purpose	Issue Date	Interest Rates	Amount	Outstanding
Governmental Activities:				
(1) Downtown Savannah Authority				
Series 2005A	November 2005	3.00 - 5.00%	\$ 6,075,000	\$ 2,065,000
(2) Mosquito Control Facility	January 2003	6.08%	4,596,057	3,342,673
(3) Downtown Savannah Authority				
Series 2009	August 2009	3.81%	2,400,000	1,775,000
(4) Downtown Savannah Authority				
(Chatham County Projects) Series 2014	October 2014	2.38%	9,840,000	8,230,000
Total			\$22,911,057	\$ 15,412,673

Information on each of these contractual obligations is shown below:

Governmental Activities:

(1) Downtown Savannah Authority Revenue Refunding Bonds (Chatham County Projects), Series 2005A:

In November 2005 the County issued bonds through the Downtown Savannah Authority in the amount of \$6,075,000. The bonds bear interest ranging between 3.00% and 5.00% with final maturity in 2020. Proceeds of the bond issue were used to i) partially refund and redeem the outstanding Downtown Savannah Authority Revenue Bonds, Series 1999 in the amount of \$5,845,000 and ii) pay related costs of issuance. The bonds were issued at a premium of \$221,126. Remaining balance for the 2005A Series at June 30, 2017 was \$2,065,000.

The refunding provided a reduction in total future debt service payments of \$322,407 with most of the savings occurring within the first year. The transaction generated an economic gain (difference between the present values of the old and new debt service payments) of \$243,373.

Pursuant to the bond issue, the County entered into an intergovernmental contract with the Downtown Savannah Authority whereby the County has an unconditional obligation to provide sufficient funds for debt service payments and related paying agent or bond registrar fees. The County is authorized to exercise its powers of taxation to the extent necessary to pay the amounts required by contract.

(2) Mosquito Control Facility:

On February 2001, the County entered into an intergovernmental agreement with the Savannah Airport Commission (SAC). Under terms of the agreement the County contracted to reimburse the SAC for the design and construction costs of a Mosquito Control Facility. The County occupied the Mosquito Control Facility on January 1, 2003. The County will repay SAC \$4,596,057 over thirty years at an interest rate of 6.08%. Monthly payments of \$27,793 began January 1, 2003 and will conclude on December 1, 2032. The County is also leasing an approximately 7.7 acre site (land lease) where the facility was built for fifty years with annual rental based on the appraised value of the land multiplied by a 12% factor. Rental rates for the land lease will be amended and modified every five years based upon a reappraisal of the value of the land. At inception, the

agreement specified an annual land rental of \$36,342. Effective January 1, 2008 the annual land rental rate was amended to \$38,496 based on the new market valuation. The Savannah Airport Commission voted to implement the new market valuation incrementally over a five-year period (\$1,600 divided by 5 years = \$320 increase per year). In addition, the Commission agreed to decrease the ground lease rate factor from 12% to 10%.

(3) Downtown Savannah Authority Revenue Bonds (Chatham County – Union Mission Project), Series

In August 2009 the County issued bonds through the Downtown Savannah Authority in the amount of \$2,400,000. The bonds bear interest at 3.81% per annum, and will be repaid annually, with final maturity on July 1, 2029. The bonds were sold to Wachovia Bank, N.A. through a private placement transaction, and no premium or discount was recorded at issuance. The bank has the option to "put" or sell the bonds to the Downtown Savannah Authority on July 1, 2019 and July 1, 2024. Proceeds from the bond sale were used to i) acquire land and improvements for a health and shelter care facility and ii) pay related bond issuance costs.

The County entered into an intergovernmental agreement with the Downtown Savannah Authority whereby the County has an unconditional obligation to provide sufficient funds for debt service payments and related paying agent or bond registrar fees. The County is authorized to exercise its powers of taxation to the extent necessary to pay the amounts required under the contract.

(4) Downtown Savannah Authority Revenue Refunding Bonds (Chatham County Projects), Series 2014:

In October 2014 the County issued bonds through the Downtown Savannah Authority in the amount of \$9,840,000. The bonds bear interest at 2.375% with final maturity in 2026. Proceeds of the bond issue were used to i) advance refund all of the outstanding Downtown Savannah Authority Revenue Refunding and Improvement Bonds, Series 2005 in the amount of \$9,550,000 and ii) pay related costs of issuance. The proceeds were deposited into an irrevocable escrow to be called on the first allowable call date of January 1, 2015. Thus, none of the 2005 Bond Series remained outstanding at June 30, 2017.

The refunding provided a reduction in total future debt service payments of \$1,129,201. The transaction generated an economic gain (difference between the present values of the old and new debt service payments) of \$1,002,523.

Pursuant to the bond issue, the County entered into an intergovernmental contract with the Downtown Savannah Authority whereby the County has an unconditional obligation to provide sufficient funds for debt service payments and related paying agent or bond registrar fees. The County is authorized to exercise its powers of taxation to the extent necessary to pay the amounts required by the contract.

A summary of annual debt service requirements to maturity for contractual obligations follows:

Annual Debt Service Requirements to Maturity

Governmental Activities			
Principal	Interest		
1,723,968	560,607		
1,792,344	498,948		
1,851,244	431,169		
1,175,700	360,669		
1,210,748	324,698		
5,602,866	1,036,885		
1,891,966	304,731		
163,837	2,918		
\$15,412,673	\$ 3,520,625		
	1,723,968 1,792,344 1,851,244 1,175,700 1,210,748 5,602,866 1,891,966 163,837		

Other Long Term Liabilities:

Governmental Activities:

(1) Pollution Control Facilities Financing

Chatham County, under court order, had agreements with various county municipalities regarding the financing of pollution control facilities. The only outstanding agreement is with the City of Pooler which began in 1984 for \$349,230. Annual payments and the schedule by years for the future minimum payments under this agreement are:

Fiscal	City of	
Year	Pooler	
	•	
2018	\$	9,978
Total	\$	9,978

Business-Type Activities:

(2) Closure and Postclosure Care Cost for Solid Waste Enterprise Fund:

The Georgia Comprehensive Solid Waste Management Act effective January 1, 1992 requires the County to strengthen solid waste management practices and to achieve a 25 percent reduction in the amount of solid waste disposed of in landfills and by thermal combustion units by the year 1996. This act requires the County to further comply with the cost reporting mandate in capturing and reporting costs for local solid waste operations, direct costs for solid waste collecting, handling and disposal, indirect administrative costs, such as for shared central services, billable cost, (external and internal), costs for debt retirement, and interest expenses. State and federal laws and regulations require the County to place a final cover on the Wilmington Island landfill. Dillion landfill. Chevis landfill. Sharon Park landfill and Thomas Avenue landfill sites when each stops accepting waste and to perform certain maintenance and monitoring functions at these sites for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that these landfills stop accepting waste, the County reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity of the landfills. The \$2,127,780 reported as the landfill closure and postclosure care liability at June 30, 2017 represents the cumulative amount reported to date based on the use of the percentage of the estimated capacity of the landfills. The percentage of landfill capacity used at June 30, 2017 is estimated to be 100%. The County has closed all the landfills. The actual cost of closure and postclosure care may fluctuate annually due to inflation, changes in technology, or changes in environmental laws and regulations. The County has set aside \$2,127,780 for financial assurance of closure and postclosure.

Changes in Long-Term Liabilities

The following is a summary of long-term obligation transactions of the County for the year ended June 30, 2017:

	Primary Government				
	Beginning	_	_	Ending	Due Within
	Balance	Additions	Reductions	Balance	One Year
0					
Governmental Activities:					
Capital Leases	\$ 3,706,552	\$ -	\$ 603,734	\$ 3,102,818	\$ 612,803

	\$ 3,714,843	\$ 131,319	\$ 1,023,264	\$ 2,822,898	\$ 1,225,752

Capital leases, contractual obligations, pollution control facilities, compensated absences, and claims & judgments are generally liquidated by the general and special service district funds. Bond Issuance costs are expensed in the year that they are incurred.

H. Fund Equity

The County's governmental funds show the following fund equity accounts:

Non-spendable – The following fund balances are non-spendable because they are allocated at the governmental fund level for:

General Fund	
Inventories	\$ 125,093
Prepaid items	 264,498
Total	\$ 389,591
Special Service District Fund	
Prepaid items	\$ 21,596
Total	\$ 21.596

Restricted – The following fund balances are shown as restricted at the governmental fund level:

General Fund Restricted by ordinance for the local emergency planning committee (LEPC) Total	\$ 16,185 \$ 16,185
Special Revenue Funds Restricted for public safety due to legal restrictions on use of funds: Inmate Welfare Fund Confiscated Revenue Fund Emergency Telephone System Fund Total	\$ 1,478,999 872,319 487,072 \$ 2,838,390
Restricted court fees under state law for juvenile court supervision, victim witness programs, drug abuse treatment and the DUI Court.	<u>\$ 1,885,873</u>
Capital Projects Funds Restricted for capital project expenditures approved through public referendum: Sales Tax I Fund Sales Tax II Fund Sales Tax III Fund	\$ 10,587,280 3,046,648 32,898,427

Sales Tax IV Fund	25,718,364
Sales Tax V Fund	51,758,670
Sales Tax VI Fund	<u>59,254,477</u>
Total	<u>\$ 183,263,866</u>

Committed – The following fund balances are committed at the governmental fund level for:

General Fund For Emergency Management Agency Financial policy three month reserve level Total	\$ 263,545 <u>46,528,677</u> <u>\$ 46,792,222</u>
Special Revenue Funds Financial policy two month reserve level Special Service District Street Lighting Fund Land Bank Fund Land Disturbing Activities	\$ 8,571,456 329,119 512,808
Ordinance Fund Total	570,074 \$ 9,983,457
Debt Service Fund Future debt service	\$ 4,290

In accordance with adopted financial policies, the Board of Commissioners has committed fund balance to cover two months of expenditures in its major operating funds. The amount of committed fund balance is modified each year based upon the adopted budget for these funds. During the budget process, the Board may also redirect these funds for expenditure.

Assigned – The following fund balances are assigned:

Assigned for Facilities Projects

General Fund	\$ 3,197,342
Special Service District	2,255,489
Total	\$ 5,452,831

Capital Projects Funds

For Purposes of the Fund:

 Capital Replacement Fund
 \$ 700,000

 Capital Improvement Fund
 16,924,294

 Total
 \$ 17,624,294

Unassigned –The general fund had unassigned fund balance of \$27,253. Hurricane Matthew had an unassigned fund deficit of \$4,853,091.

I. Restricted Net Position

Financial statements prepared on the accrual basis of accounting (proprietary funds and government-wide statements) show restrictions of net position as follows:

Restricted for Capital Projects – Capital Projects Funds – The restriction represents amounts to be used for capital project expenditures as legally restricted through public referendum or contractual obligation.

Restricted for Solid Waste Management Activities – Enterprise Fund – These amounts are legally restricted for certain uses as specified by State statutes and local ordinance.

Restricted for Public Safety – The restriction represents amounts restricted by State law for law enforcement purposes.

Restricted for Judiciary Programs – The restriction represents court fees as restricted by State law for certain programs. The use of fees collected for digital image transmission is restricted for the technology improvements within the Clerk of Superior Court's office by the Georgia Superior Court Clerk's Cooperative Authority.

Restricted for Other Purposes – The use of fees collected from private industry is restricted for use by the Local Emergency Planning Commission.

J. Net Investment in Capital Assets

Net investment in capital assets, in the government-wide statement of net position as of June 30, 2017 is as follows:

	Governmental Activities	Business-Type Activities
Net Investment in Capital Assets:		Activities
Net Capital Assets	\$(873,963,628)	\$(6,395,263)
Less Capital Related Debt	18,555,921	-
Less Capital Improvements Reported in Accounts Payable	959,312	
Unspent Bond Proceeds	-	-
Net Investment in Capital Assets	\$(854,448,395)	\$(6,395,263)

IV. OTHER INFORMATION

Pension Plans

The County maintains a cost-sharing multiple-employer pension plan to provide retirement benefits to employees of the County. The Chatham Emergency Management Agency (CEMA) an agency of the County participates in a separate cost-sharing multiple-employer pension plan administered by the Georgia Municipal Employees Benefit System. Separate plan disclosures are provided herein. The combined proportionate share of the net pension liability for the two plans is:

	Chatham County	CEMA	Total Primary Government
Total pension liability	\$280,450,803	\$895,654	\$281,346,457
Plan fiduciary net position	229,766,671	529,540	230,296,211
Proportionate share of net position liability	\$ 50,684,132	\$ 366,114	\$ 51,050,246

A. The Chatham County Employees' Retirement Plan (CCERP)

Chatham County administers a cost-sharing multiple-employer defined benefit pension plan. The plan assets shall be used only for the payment of benefits to the members of the plan, in accordance with the terms of the plan.

1. Summary of Significant Accounting Policies:

Basis of Accounting. CCERP financial statements are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which the contributions are due. Employer contributions to the plan are recognized when due and the employer has made a formal commitment to provide the contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Method Used to Value Investments. Investments are reported at fair value. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value. See note III.A. for additional information related to the Pension Trust Fund investments.

2. Plan Description and Contribution Information

Plan Description

Plan Administration: The Chatham County Employees' Retirement Plan (Plan) is a cost sharing multiple-employer defined benefit pension plan that covers all County employees and former employees now employed within the Savannah-Chatham Metropolitan Police Department. The plan provides retirement, disability, and death benefits to plan members and their beneficiaries. Article IX of the Chatham County Employees' Retirement Plan defines the authority of the Pension Board including their ability to establish and amend the benefit provisions of the plan.

Management of the CCERP is vested in the Pension Board, which consists of the Commission Chairman, the County Manager, the Finance Director, the Human Resources Director, two general employees, two retirees and one citizen at large appointed by the Board of Commissioners.

The County administers the Plan, and the County's responsibility includes pension disbursements and general administration of the Plan under the authority of the Chatham County Pension Board. The Pension Board has contracted with Wilmington Trust to act as custodian of the assets of the Plan. The accounting and financial reporting functions are performed by the County Finance Department. The County's General Fund bears most of the Plan's administrative costs. The Plan's audited financial statements are included in the County's Comprehensive Annual Financial Report as a Pension Trust Fund. The Plan does not issue a stand-alone financial report. The benefit provisions and all other related plan requirements are established and may be amended by County Ordinance. The Pension Plan is actuarially evaluated every year.

Membership of the plan consisted of the following as of July 1, 2017, the date of the last actuarial evaluation:

Disabled employees, retirees and	
beneficiaries receiving benefits	808
Terminated plan members entitled to but not	
yet receiving benefits	42
Active plan members	1,543
Total membership	2,393

Benefits provided. For employees hired prior to July 1, 2013 benefits vest after five years of service. For employee hired after that date benefits vest after 10 years of service. For general employees normal retirement age is 62 and for peace officer's employee's normal retirement age is 55. County employees who retire at normal retirement age are entitled to 2 percent of the final average earnings for each of the first 30 years of credited service plus one percent of final average earnings for the remaining number of years of credited service. Employees who are age 55 with 25 or more years of service have the reduced benefit from 30 years of service in lieu of age. The plan also provides for occupational and non-occupational disability. Members may also retire with unreduced benefits with 25 years of credited service. The plan also provides incentives for early retirements with reduced benefits of a 3 percent per year penalty for early retirement. Full benefits are equal to the average of the highest three years of covered earnings. Cost-of-living adjustments (COLA) are provided at the discretion of the Pension Board.

Contributions. The annual contribution amounts are actuarially determined. Effective July 1, 2007, the Plan requires contributions of 3.5% by the employee. The County contributes such additional amounts as are necessary, based on actuarial valuations, to provide the plan with sufficient assets to meet future benefit payments. In 2017, the County contributed \$14,795,857 (22.54% of covered payroll), and the contributions paid by employees totaled \$2,412,284. The total payroll for employees covered under the plan for the year ended June 30, 2017 was \$65.65 million.

3. Investments

Investment Policy. The primary investment objective of the Chatham County Employees' Pension Fund is the preservation of invested capital. The secondary objective is to achieve moderate long-term real growth of the assets while minimizing the volatility of the returns. The Pension Board seeks to create a conservative, well diversified and balanced portfolio of high quality equity, fixed income and money market securities. The Board has determined that one or more outside investment managers shall be retained to assure that all investments are managed in both a prudent and professional manner and in compliance with the stated investment guidelines. The following was the Board's adopted asset allocation policy as of June 30, 2017:

Asset Class	Target Allocation	Actual Allocation
Large Cap Equity	39.0%	41.4%
Mid Cap Equity	8.0%	8.9%
Small Cap Equity	8.0%	8.4%
International Equity	15.0%	13.7%
Fixed Income	30.0%	25.6%
Cash & Equivalent	0.0%	2.0%
	100.0%	100.0%

Rate of Return. For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 14.1%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

4. Net Pension Liability

Net components of the net pension liability of the Plan at June 30, 2017, were as follows:

Total Pension Liability	\$292,037,414
Fiduciary net Position	239,259,306
Net Pension Liability	\$ 52,778,108
Ratio of Fiduciary Net Position to	
Total Pension Liability	81.93%

Changes in the Net Pension Liability

Balances - end of year	\$	292,037,414	\$	239,259,306	\$	52,778,108

Actuarial Assumptions. The actuarial valuations use the entry age normal actuarial cost method. The Plan changed from the aggregate actuarial cost method to the entry age normal method on July 1, 2003. The Plan's amortization method is level dollar with closed amortization periods. The equivalent single amortization period is 12 years, based on all of the current amortizations. The actuarial assumptions include a 7.6% investment rate of return (net of administrative expenses). Salary progression rates are based on actual compensation increases from 2005 to 2017. The rates range from .5% to 3% depending on age and years of service. An inflation factor of 3% is included in the assumptions for salary growth purposes. The assumptions do not include postretirement benefit increases. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. Gains or losses are recognized at 20% per year. The County amortized the July 1, 2003 unfunded actuarial accrued liability over 30 years (18 remaining), increases or decreases in the actuarial accrued liability due to plan amendments over 20 years, actuarial gains/losses over 15 years, and changes in the actuarial accrued liability due to assumptions changes over 30 years. Assumption changes for retired members only are amortized over 10 years.

Mortality rates were based on the RP-2000 Healthy Annuitant Mortality Table projected to 2008 and updated to reflect actual large governmental plan experience through 2010. The table includes a margin for future improvement in the life expectancy.

Disability mortality rates were based on the RP-2000 Disabled Retiree Mortality Table projected to 2008 and updated to reflect actual large government plan experience through 2010. The table includes a margin for future improvement in life expectancy.

The valuation interest rate was reduced to 7.6% based on analysis performed by the investment consultant.

The actuarial assumptions used in the July 1, 2015 valuation were based on the results of the last actuarial experience study dated November 1, 2017. The July 1, 2015 is the actuarial valuation date upon which the total pension liability is based. The result was rolled forward using standard actuarial techniques to the measurement date.

Long-term expected rate of return. Dahab Associates, investment consultants for the Chatham County Employee Retirement Plan, recommended to the Pension Board a series of rates of long-term investment return expectations. The chart below indicates the asset class, index and the long term expected returns (arithmetic averages not adjusted for inflation) for the past 20 years as of June 30, 2017.

Asset Class	Index	Long-term expected rate of return
Large Cap Equity	Russell 1000	8.7%
Mid Cap Equity	Russell Midcap	11.0%
International Equity	MSCI ACWI Ex US	9.2%
Small Cap Equity	Russell 2000	6.7%
	Barclays	
Fixed Income	Gov/Credit	5.3%
Inflation	CPI	3.0%

Discount rate. Based on the 39% Large Cap Equity, 8% Mid Cap Equity, 8% Small Cap Equity, 15% International Equity, and 30% Fixed Income policy target allocation of the Plan, it is expected to achieve a combined long-term return of 7.6%.

Projected cash flows. The projection of cash flows used to determine the discount rate assumed the County would contribute 22.63% of payroll. Chatham County has, since July 1, 2003, followed a policy of funding each year an amount at least equal to the normal cost plus an amount sufficient to amortize the unfunded actuarial accrued liability in accordance with the Public Retirement Systems Standards Law. This allows the amortization of July 1, 2003 unfunded actuarial accrued liability over 30 years, increases or decreases in actuarial accrued liability due to plan amendments over 20 years, actuarial gains/losses over 15 years, and changes in the actuarial accrued liability due to assumption changes over 30 years. If the plan amendment applies to retired members only, the change is amortized over 10 years. The resulting contribution can be reduced by prior year contributions in excess of the amount determined in accordance with the policy.

Periods of projected benefit payments. Projected future benefit payments for all current plan members were projected through 2112.

Sensitivity analysis. The following presents the net pension liability of the Plan, calculated using the discount rate of percent, as well as what the Plans net pension liability would be if it were calculated using a discount rate that is 1- percentage-point lower or 1-percentage-point higher than the current rate:

	Current		
	1% Decrease (6.6%)	Discount Rate (7.6%)	1% Increase (8.6%)
Plan's Net Pension Obligation	\$83,691,464	\$52,778,108	\$26,451,457

5. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2017, the County (primary government) and the Live Oak Library System (discretely presented component unit) reported their proportionate share of the net pension liability as follows:

		Discretely
		Presented
	Primary	Component
	Government	Unit
	County	Library
Total pension liability	\$ 281,346,457	\$ 489,694
Plan fiduciary net position	230,296,211	401,195
Proportionate share of net pension liability	\$ 51,050,246	\$ 88,499

The County's and Library's proportion of the net pension liability was based on the historical employer contributions. At June 30, 2017 the County's and Library's proportion was 96.032491% and .167682% respectively which was an decrease for the County of .920283% and a decrease of .032089% for the Library from its proportion measured as of June 30, 2017.

For the year ended June 30, 2017, the County and Library recognized pension expense of \$14,042,082 and \$20,116, respectively. Each employer reported its proportion of deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred of Reso		
	Primary Government County	Discretely Presented Component Unit Library	Primary Government County	Discretely Presented Component Unit Library	
Differences between expected and actual experience	\$ 1,822,608	\$ 3,182	\$1,402,852	\$ 2,450	
Change in Assumptions	7,095,685	12,390	-	-	
Net difference between projected And actual investment earnings on pension plan investments	2,356,099	4,114	-	-	
Changes in proportion	499,244	2,695		13,139	
Proportionate share of net position	\$11,773,636	\$22,381	\$1,402,852	\$15,589	

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	<u> </u>	Primary Government County	cretely Presented conent Unit - Library
2018	\$	4,111,288	\$ 4,706
2019		4,111,288	4,706
2020		2,362,262	1,712
2021		(564,673)	(2,915)
2022		350,619	 (1,417)
	\$	10,370,784	\$ 6,792

B. Georgia Emergency Management Agency Retirement Plan (GEMARP)

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Georgia Emergency Management Agency Retirement Plan (GEMARP), and additions to/deductions from fiduciary net position have been determined on the same basis as they are reported by GEMARP. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

1. Plan Description

The Georgia Municipal Employees Benefit System (GMEBS) administers the various retirement systems and retirement programs. The GEMARP is a cost–sharing multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*. Employers' proportionate shares were calculated on the basis of recommended

employer contributions. Although GASB 68 encourages the use of the employer's projected long-term contribution effort to the retirement plan, allocating on the basis of employer contributions is considered acceptable.

The GMEBS issues a publicly available financial report that includes financial statements and required supplementary information for GMEBS. That report may be obtained by writing to GMEBS, 201 Pryor St. S.W., Atlanta, Georgia 30303.

2. Membership

The Chatham County Emergency Management Agency became a department within the primary government. Employees were given the option of joining the Chatham County Employee Retirement Plan or stay with the GMEBS plan. All but one elected to move to the CCERP.

3. Benefits Provided

Benefits are fully vested after 5 years of service. Participants become eligible to retire at age 62, with 5 years or age 55 with 10 years of participation in the plan with reduced benefits. Upon eligibility to retire, generally participants are entitled to an annual benefit in the amount of 1.00% of final average earnings up to a participant's amount of covered compensation, plus 1.75% of final average earnings in excess of the participant's covered compensation, all multiplied by the participant's years of total credited service.

4. Contributions

The County's policy is to contribute the actuarially determined amount as recommended by GMEBS. The Board of Trustees of GMEBS has adopted an actuarial funding policy for determination of annual contributions and the systematic funding of liabilities arising under the plan. The annual recommended contribution is the sum of 1) the normal cost, 2) the closed level dollar amortization of the unfunded actuarial accrued liability over a period that ranges from 10 to 30 years based on the funding policy adopted by the GMEBS Board of Trustees, and 3) interest on these amounts from the valuation date to the date contributions are paid (assumed monthly). Ongoing plans in compliance with GMEBS funding policy are ultimately projected to have no unfunded benefits under this amortization method. Plans where the unfunded liability is not projected to be fully amortized have special funding rules apply such that the unfunded liability is ultimately projected to decline to zero.

The recommended contribution is 11.27% of expected payroll. The required contribution amount is invoiced to CEMA on a quarterly basis. The quarterly amount for fiscal year 2017 was \$14,300.

5. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, CEMA reported a liability of \$366,114 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2016. CEMA's proportion of the net pension liability was based on the recommended employer contributions. At June 30, 2017, CEMA's proportion was 20.7375%.

Changes in the net pension liability:

		ncrease (Decrease)	
	Total	Plan Fiduciary	
	Pension	Net	Net Pension
	Liability	Position	Liability
	(a)	(b)	(a) - (b)
Balance - beginning of year	\$ 882,579	\$ 584,141	\$ 298,438
Service Cost	10,278		10,278
Interest	65,619		65,619
Changes in benefit terms	,		,
Difference between expected			
and actual experience	40,780		40,780
Changes in assumptions			
Contributions - employer		18,460	(18,460)
Contributions - employee			
Net investment income		580	(580)
Benefit payments including			
refunds	(71,774)	(71,774)	-
Administrative expense		(1,867)	1,867
Other	(31,828)		(31,828)
Net Changes	13,075	(54,601)	67,676
Balance - end of year	\$ 895,654	\$ 529,540	\$ 366,114

For the year ended June 30, 2017, CEMA recognized pension expense of \$55,578. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources
Difference between expected and actual experience	\$ 34,028
Net difference between projected and actual investment earnings	-
Change in Assumptions	-
Contributions subsequent to the measurement date	51,381
Total	\$ 85,409

\$34,042 reported as deferred outflows of resources related to pensions resulting from CEMA contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources will be recognized in pension expense as follows:

Measurement period ending June 30:

2018	\$ 8,505
2019	8,505
2020	8,507
2021	8,511
	\$34,028

6. Actuarial Assumptions and Methods

Actuarial valuations involved estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined during the valuation process are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The mortality an economic actuarial assumptions used in the July 1, 2015 valuation were approved by the Board in December, 2014 based on the results of an actuarial experience study for the period January 1, 2010 through June 30, 2014 conducted by the actuary.

Actuarial Cost method Entry Age

Actuarial assumptions:

Investment rate of return 7.75%

Projected salary increases Service based merit increases

Inflation rate 3.25%

Benefit Adjustments 2.00%

Mortality rates were based on the RP-2000 Combined Healthy Mortality Table with sex-distinct rates, set forward two years for males and one year for females. RP-2000 Disabled Retiree Mortality Table with sex-distinct rates was used for disabled beneficiaries.

7. Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The difference between the resulting rate and the rate on the ongoing basis is a margin for adverse deviation. Best

estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of March 31, 2015 are summarized in the following table:

Asset Class	Target Asset Allocation	Long Term Expected Rate of Return	Long Term Expected Nominal Real Rate of Return
Domestic equity	50.0%	5.95%	9.20%
International equity	15.0%	6.45%	9.70%
Fixed income	25.0%	1.55%	4.80%
Real estate	10.0%	3.75%	7.00%
Cash	0.0%		
Total	100.0%		

8. Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

9. Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table represents the collective net pension liability of the participating employers calculated using the discount rate of 7.75 percent, as well as what employers' net pension liability would be if it were calculated using a discount rate that is 1.00 percent lower (6.75 percent) or 1.00 percent higher (8.75 percent) than the current rate:

	1%	Discount	1%	
	Decrease	Rate	Increase	
	(6.75%)	(7.75%)	(8.75)	
Proportionate Share of the net pension liability	\$ <u>444,732</u>	\$ <u>366,114</u>	\$ <u>298,631</u>	

C. Pensions with a Special Funding Situation:

The following pension plans are all cost-sharing, multiple employer defined benefit plans. Below is a list of the plans presented:

Employees Retirement System - (ERS)
Georgia Judicial Retirement System - (GJRS)
Sheriffs' Retirement Fund of Georgia - (SRFG)
Judges of the Probate Courts Retirement Fund of Georgia - (JPCRF)
Magistrates Retirement Fund of Georgia - (MRF)
Peace Officers' Annuity and Benefit Fund of Georgia - (POAB)

The employer contributions are funded by the State on behalf of the local county employer. Since the County does not contribute directly to the plans, there is no net pension liability or deferred inflows or outflows to report in the financial statements of the County. GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* requires participating employers and nonemployers contributing entities to recognize their proportional share of collective net pension liability and pension expense. The following table summarizes the proportional share of the collective net pension liability for each of the plans.

	ERS	-	GJRS	 SRFG	 JPCRF	-	MRF	 POAB		TOTAL
County's proportional share of the collective net pension liability	-	\$	-	\$ -	\$ -	\$	-	\$ -	\$	-
State's proportionate share of the collective net pension liability Chatham County State Court Chatham County Tax Officials	2,539,337 1,362,314		(468,426)	402,695	(70,171)		(61,090)	534,707	\$ \$ \$	337,715 2,539,337 1,362,314
Total net pension liability \$	3,901,651	\$	(468,426)	\$ 402,695	\$ (70,171)	\$	(61,090)	\$ 534,707	\$	4,239,366
Pension revenue and expense for state support \$	276,234	\$	22,126	\$ 161,789	\$ 29,095	\$	16,226	\$ 156,161	\$	661,631

D. Post-employment Benefits Other Than Pensions (OPEB)

Any age with 25 years of service.

1. Plan Description

The Chatham County OPEB Plan is a single-employer defined benefit plan that provides medical and life insurance benefits upon retirement to the County's retirees and their spouses and/or dependents. Retirees may choose from two medical plans administered by Blue Cross Blue Shield of Georgia. Medicare eligible retirees receive secondary coverage through the County. The County also provides a life insurance benefit of \$10,000 for all retirees. Participation in the Plan is voluntary. Benefit levels, contribution rates and eligibility provisions of the Plan are determined by the Chatham County Board of Commissioners. The Plan does not provide for automatic or ad hoc postretirement benefit increases.

Membership of the plan consisted of the following as of June 2017, the last full valuation date:

Retirees and beneficiaries currently receiving benefits	628
Active plan participants	<u>1,422</u>
Total	2,050

For the plan year, eligibility for life insurance and retiree medical coverage was available upon retirement upon attainment of any one of the following age and service combinations:

Law Enforcement & Emergency Medical	
Service Employees	General Employees
Age 55 with any service, or	Age 62 with any service, or
ge 50 & 15 years of service, or	Age 55 & 10 years of service, or

Any age with 25 years of service.

The County administers the Plan, and the County's responsibility includes claims administration and general administration. The County's General Fund bears most of the administrative costs of the Plan. The Plan is actuarially evaluated every two years. Calculations are based on benefits provided and in effect at the valuation date and the pattern of cost-sharing in place between the County and its plan members.

2. Investments

Investment authority for the Plan is the responsibility of the County's Pension Board through an agreement between the Pension Board and the Chatham County Board of Commissioners. In March 2008, the Chatham County Board of Commissioners established a trust under Section 115 of the United States Internal Revenue Code to further the Board's purpose of providing adequate funding for post-retirement benefits. The Board also entered into an agreement granting the Pension Board investment authority over the assets of the trust. Activities of the Plan are reported on the County's Comprehensive Annual Financial Report as a Trust Fund, Chatham County OPEB Trust Fund. The Plan does not issue a stand-alone financial report. Benefit provisions and all other related plan requirements are established annually by the Board of Commissioners.

Target Allocation

	_ Actual_	_ Target
Large Cap Equity	30.00%	30.00%
Mid Cap Equity	10.10%	10.00%
Small Cap Equity	10.20%	10.00%
Fixed Income	49.60%	50.00%

3. Contributions

Funding for the Plan is derived from two sources: member contributions and employer contributions. Member contributions are set annually by the Board. Annual contributions of Plan members for the current fiscal year were as follows:

	FULL PLAN RATE	RETIREE PREMIUM	COUNTY CONTRIBUTION
Pre-65 Point of Service (POS)			
Retiree, under 65	\$663.94	\$36.00	\$627.94
Retiree, under 65 + spouse	\$1,327.90	\$168.00	\$1,159.90
Retiree, under 65 + children	\$1,261.50	\$132.00	\$1,129.50
Family Coverage	\$1,991.84	\$210.00	\$1,781.84
Surviving Spouse	\$663.94	\$36.00	\$627.94
Surviving Spouse + Children	\$1,261.50	\$132.00	\$1,129.50
Pre-65 Preferred Provider Organization (PPO)			
Retiree, under 65	\$747.09	\$90.00	\$657.09
Retiree, under 65 + spouse	\$1,494.18	\$258.00	\$1,236.18
Retiree, under 65 + children	\$1,419.47	\$216.00	\$1,203.47
Family Coverage	\$2,241.27	\$354.00	\$1,887.27
Surviving Spouse	\$747.09	\$90.00	\$657.09
Surviving Spouse + Children	\$1,419.47	\$216.00	\$1,203.47
Post-65 Medicare Advantage Rates			
Medicare eligible Retiree Only	\$429.78	\$32.00	\$397.78
Medicare eligible Retiree + spouse	\$859.56	\$64.00	\$795.56
Surviving Spouse	\$429.78	\$32.00	\$397.78
Rates for dependents under age 65			
(who are not eligible for Medicare) (PPO)	07.47.00	Фос. 22	#745.00
Spouse	\$747.09	\$32.00	\$715.09
Spouse + children	\$1,419.47	\$64.00	\$1,355.47
Children only	\$747.09	\$32.00	\$715.09
Surviving Spouse	\$747.09	\$32.00	\$715.09
Surviving Spouse + children	\$1,419.47	\$64.00	\$1,355.47

Contributions paid by retirees in the current fiscal year totaled \$809,135. The County contributes annually an amount equal to the pay-as-you-go cost of retiree healthcare. Subject to budgetary constraints, the County contributes additional amounts to the Plan for advance funding of future liabilities. The Annual OPEB Cost is actuarially determined. In 2017 the County contributed \$17,987,984 or 101.9% of the annual OPEB cost. The covered payroll is \$67,370,000 under the plan for the year ended June 30, 2017.

4. Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost and net OPEB obligation for the past three years is shown below:

Plan Year Ended	Annual <u>OPEB Cost</u>	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2015	15,881,000	61.2%	32,029,358
June 30, 2016	16,829,000	82.3%	35,004,770
June 30, 2017	17,656,000	101.9%	34,672,771

The Net OPEB Obligation was developed as follows, based on an actuarial valuation date of July 1, 2016:

Annual Required Contribution	\$16,938,000
Interest on Unfunded ARC	2,526,001
Adjustment of ARC	(1,808,000)
Annual OPEB Cost	17,656,000
Actual Contribution	(17,988,000)
Increase in OPEB Obligation	(332,000)
Net OPEB Obligation(asset), beg of year	35,004,770
Net OPEB Obligation at year end	\$34,672,771

5. Funded Status and Funding Progress

Schedule of Funding Progress (dollars in thousands)

			Total			Ratio of the Unfunded

Plan Fiduciary Net Position as a percent of Covered Payroll	age	494%

6. Actuarial Assumptions and Methods

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. As such, actuarial calculations reflect a long-term perspective. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The Plan uses the entry-age normal cost method, and the amortization period for the unfunded actuarial accrued liability is open at 30 years calculated on a level percentage of payroll basis. The investment return assumption or discount rate is assumed to be 7.2% based on the funding policy currently in place. Upon full annual funding of the Annual OPEB Cost, an 8.5% rate would be assumed. The health care cost trend rate (medical and pharmacy) is 5.9% decreasing to an ultimate rate of 3.94%. Full participation by the eligible population is assumed. The valuation does not use a core inflation rate directly, although inflation trends are reviewed to ensure consistency in the selection of the discount rate and the medical trend rate. Calculations are based on the types of benefits provided under the plan at the time of each valuation and on the pattern of cost sharing between the employer and plan members to that point. The County has not entered into any long-term contracts for contributions to the Plan with any party, and, accordingly, there were not amounts of contractually required contributions outstanding at the report date.

ASSUMPTIONS

Inflation Wage inflation Salary increases, including wage inflation Long Term Expected Rate of Return	3.00% 3.00% 6.0% - 3.0% 7.20%

2017	332,940	5,389,645	5,415,041	307,544

E. Chatham Area Transit Authority Post-employment Benefits (Discretely Presented Component Unit)

Chatham Area Transit maintains a single-employer defined benefit postemployment life and healthcare plan for its retired employees. Plan benefit provisions and contribution requirements are established and may be amended by the Authority, subject to negotiations between it and the Amalgamated Transit Union. The Annual OPEB Cost, percentage of cost contributed and Net OPEB Obligation were:

Plan Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
June 30, 2015	109,784	36%	277,454
June 30, 2016	65,967	37%	318,916
June 30, 2017	66,094	35%	361,746

As of July 1, 2017, the actuarial accrued liability for benefits was \$725,521 and the actuarial value of assets

was zero, resulting in an unfunded actuarial accrued liability of \$725,521. Further details on the CAT plan can be obtained from the Chatham Area Transit Authority.

F. Retirement Plan - Chatham County Board of Health (Discretely Presented Component Unit)

Plan description: – ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees. Title 47 of the O.C.G.A. assigns the authority to establish and amend the benefit provisions to the State Legislature. ERS issues a publicly available financial report that can be obtained at <a href="https://www.ers.ga.gov/formspubs/

Benefits provided: The ERS Plan supports three benefit tiers: Old Plan, New Plan, and Georgia State Employees' Pension and Savings Plan (GSEPS). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions: Member contributions under the old plan are 4% of annual compensation, up to \$4,200, plus 6% of annual compensation in excess of \$4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The Center's contractually required contribution rate, actuarially determined annually, for the year ended June 30, 2017 was 24.69% of annual covered payroll for old and new plan members and 21.69% for GSEPS members. The Center's contributions to ERS totaled \$1,261,197 for the year ended June 30, 2017. Contributions are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the Center reported a liability for the District's its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2015. An expected total pension liability as of June 30, 2016 was determined using standard roll-forward techniques. The District's proportion of the net pension liability was based on contributions to ERS during the fiscal year ended June 30, 2016. At June 30 2016, the Employer's proportion was 0.222278%, which was an increase (decrease) of (0.006630%) from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the Center recognized District pension expense of \$949,173. At June 30, 2017, the Center reported deferred outflows of resources and deferred inflows of resources of the District related to pensions from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	-	\$	24,282
Changes of assumptions		89,063		-
Net difference between projected and actual earnings on pension plan investments		1,069,049		-
Changes in proportion and differences between Employer contributions and proportionate share of contributions				
		-		210,574
Employer contributions subsequent to the measurement date		1,261,197		-
Total	\$	2,419,309	\$	234,856

The District's contributions subsequent to the measurement date of \$1,261,197 are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	
2017	\$(60,746)
2018	50,329
2019	576,376
2020	357,295
2021	-
Thereafter	_

Actuarial assumptions: The total pension liability as of June 30, 2016 was determined by an actuarial valuation as of June 30, 2015 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.75%

Salary increases 3.25-7.00%, including inflation

Investment rate of return 7.50%, net of pension plan investment expense, including inflation

Post-retirement mortality rates were based on the RP-2000 Combined Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB and set forward 2 years for both males and females for service retirements and dependent beneficiaries. The RP-2000 Disabled Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB and set back 7 years for males and set forward 3 years for females was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the numbers of expected future deaths are 9-12% less than the actual number of deaths that occurred during the study period for service retirements and beneficiaries and for disability retirements. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	TargetAllocation	Long-term expected real rate of return
Fixed Income	30.00%	(.50)%
Domestic large equities	37.20%	9.00%
Domestic mid equities	3.40%	12.00%
Domestic small equities	1.40%	13.50%
International developed market equities	17.80%	8.00%
International emerging market equities	5.20%	12.0%
Alternatives	5.00%	10.50%
Total	100%	

^{*} Rates shown are net of the 2.75% assumed rate of inflation

Discount rate: The discount rate used to measure the total pension liability was 7.50 %. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and State of Georgia contributions will be made at rates equal to the

difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Agency's proportionate share of the net pension liability to changes in the discount rate:

The following presents the Agency's proportionate share of the net pension liability calculated using the discount rate of 7.50 %, as well as what the Agency's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 %) or 1- percentage-point higher (8.50 %) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Employers Proportionate share of the net pension liability	\$14,249,337	\$10,514,677	\$7,332,005

Pension plan fiduciary net position: Detailed information about the pension plan's fiduciary net position is available in the separately issued ERS financial report which is publically available at www.ers.ga.gov/formspubs/formspubs.

G. Live Oak Public Libraries (Discretely Presented Component Unit)

The Library provides pension benefits for all eligible employees through the following pension plans:

1. Teachers Retirement System of Georgia (TRS)

Plan Description – The Teachers Retirement System of Georgia (TRS), is a cost sharing multiple employer defined benefit pension plan administered by a Board of Trustees. Title 47 of the Official Code of Georgia assigns the authority to establish and amend the provisions of the TRS to the State Legislature. TRS issues a publicly available financial report that can be obtained from the Teachers Retirement System of Georgia website.

Benefits provided - TRS provides service retirement, disability retirement and survivors' benefits. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service. Normal retirement benefits are determined as 2% of the average of the employee's two highest paid consecutive years of service times the number years of creditable service up to forty years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60 or by 7% for each year or fraction thereof by which the member has less than 30 years of service. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Disability retirement benefits are determined in the same manner as normal retirement benefits, using a percentage of salary formula. At least ten years of creditable service is required to qualify for disability retirement benefits. Death benefits are based on the employee's creditable service (minimum of ten years of service) and compensation up to the date of death.

Contributions – TRS is funded by member and employer contributions as adopted and amended by the Board of Trustees. Member contributions are limited by State law to not less than 5% or more than 6% of a member's annual compensation. For the fiscal year ended June 30, 2017, employees of the Library who are covered by TRS were required to contribute 6% of their annual compensation to the TRS. The Library's required contribution rate, actuarially determined, for the year ended June 30, 2017 was 14.27% of annual salary for participating employees. The Library's contributions to the plan for the year ended June 30, 2017 were \$579,326.

2. Employees' retirement system of Georgia (ERS)

Plan Description – The Employees' Retirement System of Georgia (ERS) is a cost sharing multiple employer defined benefit pension plan administered by a Board of Trustees. Title 47 of the Official Code of Georgia assigns the authority to establish and amend the provisions of the ERS to the State Legislature. ERS issues a publicly available financial report that can be obtained from the Employees' retirement System of Georgia website.

Benefits provided - The ERS Plan supports three benefit tiers: Old Plan, New Plan, and Georgia State Employees' Pension and Savings Plan (GSEPS). Employees under the old plan started membership prior to July 1, 1982 and are subject to plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are new plan members subject to modified plan provisions. Effective January 1, 2009, new state employees and rehired state employees who did not retain membership rights under the Old or New Plans are members of GSEPS. ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to GSEPS. Under the old plan, the new plan, and GSEPS.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions - Member contributions under the old plan are 4% of annual compensation, up to \$4,200, plus 6% of annual compensation in excess of \$4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The Library's contractually required contribution rate, actuarially determined, for the year ended June 30, 2017 was 24.81%. The Library's contributions to the plan for the year ended June 30, 2017 were \$9,640.

3. Chatham County Employees' Retirement Plan (CCERP)

Plan Description – Custodial and certain other personnel of the Library are covered by the Chatham County Employees' Retirement Plan (CCERP), which is a cost sharing defined benefit plan. CCERP provides retirement, disability and death benefits to plan members and their beneficiaries. Article IX of the Chatham County Employees' Retirement Plan assigns the Pension Board with the authority to establish and amend the benefit provisions of the Plan. The Plan is administrated by Chatham County.

Contributions – Contributions to the Plan are actuarially determined. Covered employees are required to contribute 3.5% of their annual covered salary to the Plan. The required employer contribution rate is 18.50% of current year covered payroll. The Library's contributions to the plan for the year ended June 30, 2017 were \$22,101.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the Library reported a liability for its proportionate share of the net pension liability for TRS, ERS and CCERP, totaling \$8,173,788.

The net pension liability was measured as of June 30, 2016. The total pension liability used to calculate the net pension liability was based on an actuarial valuation as of June 30, 2015. An expected total pension liability as of June 30, 2016 was determined using standard roll forward techniques. The Library's proportion of the net pension liability was based on contributions to TRS, ERS and CCERP. At June 30 2016, the Library's TRS proportion was .038609%, which was an increase of .000534% from its proportion measured as of June 30, 2015. At June 30 2016, the Library's ERS proportion was .002533%, which was an increase of .000143% from its proportion measured as of June 30, 2015.

The net pension liability for CCERP was measured at June 30 2017, the total pension liability used to calculate the net pension liability was based on an actuarial valuation as of July 1, 2016. An expected total pension liability as of June 30, 2017 was determined using standard roll-forward techniques. At June 30, 2017, the Library's CCERP proportion was .167682%, which was an increase of .032089% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2017, the Library recognized pension expense as follows:

TRS	\$ 863,323
ERS	14,278
CCERP	20,116
	\$ 897,717

At June 30, 2017, the Library reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	TRS		ERS				
		erred Outflow Resources	 rred Inflow lesources		red Outflow Resources		red Inflow sources
Differences between expected and actual experience	\$	118,664	\$ 39,389	\$	-	\$	277
Net difference between projected and actual earnings on pension plan investments		1,007,664	-		12,182		-
Difference between expected and actual assumptions		206,454	-		1,016		-
Changes in proportion and differences between Library's contributions and proportionate share of contributions		80,064	26,526		3,537		139
Changes in assumptions							
Library's contribution to the pension plan subsequent to the measurement date		579,325	-		9,640		-
Total deferred outflows/(inflows)	\$	1,992,171	\$ 65,915	\$	26,375	\$	416

	CCERP			TOTALS				
		red Outflow esources		rred Inflow lesources		rred Outflow Resources		rred Inflow Resources
Differences between expected and actual experience	\$	3,182	\$	2,450	\$	121,846	\$	42,116
Net difference between projected and actual earnings on pension plan investments		4,114		_		1,023,960		-
Difference between expected and actual assumptions		-		-		207,470		-
Changes in proportion and differences between Library's contributions and proportionate share of contributions		2,695		13,139		86,296		39,804
Changes in assumptions		12,390				12,390		-
Library's contribution to the pension plan subsequent to the measurement date		-		-		588,965		-
Total deferred outflows/inflows	\$	22,381	\$	15,589	\$	2,040,927	\$	81,920

Library contributions subsequent to the measurement date to the various plans are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	TRS		ERS		ERS CCERP		CCERP		TOTAL
2018	\$	169,453	\$	4,161		\$	4,706		\$ 178,320
2019		169,453		1,659			4,706		175,818
2020		580,949		6,427			1,712		589,088
2021		408,176		4,072			(2,915)		409,333
2022		18,900		-			(1,417)		17,483
	\$	1,346,931	\$	16,319		\$	6,792		\$ 1,370,042

Actuarial assumptions - The total pension liability was determined by an actuarial valuation using the following actuarial assumptions, applied to all periods included in the measurement:

Teachers Retirement System:

Post-retirement benefit increases

Inflation 2.75%

Salary increases 3.25% - 9.00% including inflation

Investment rate of return 7.50% net of pension plan investment expense, including inflation

1.50% semi-annually

Post- retirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward one year for males) for service retirements and dependent beneficiaries. The RP-2000 Disabled Mortality Table forward two years for males and four years for females) was used for death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

Investment Asset Allocation – The long-term expected rate of return on TRS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for major asset class are summarized in the following in the following table for TRS investments:

	Target	Long-term Expected Real
Asset Class	Allocation	Rate of Return *
Fixed income	30.00%	-0.50%
Domestic large equities	39.80%	9.00%
Domestic mid equities	3.70%	12.00%
Domestic small equities	1.50%	13.50%
International developed market equities	19.40%	8.00%
International emerging market equities	5.60%	12.00%
Total	100.00%	

^{*} Rates shown are net of the 2.75% assumed rate of inflation

Discount rate – The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all projected benefit payments to determine the total pension liability.

Employees' Retirement System:

Inflation 2.75%

Salary increases 3.75% - 7.00% including inflation

Investment rate of return 7.50% net of pension plan investment expense including inflation

Post retirement mortality rates were based on the RP-2000 Combined Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries projection scale BB and set forward 2 years for both males and females for service retirements and dependent beneficiaries. The RP-2000 Disabled Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries projection scale BB and set back 7 years for males and set forward 3 years for females was used for death after disability retirement. There is a margin for future mortality improvement in the tables used by the System. Based on the results of the most recent experience study adopted by the Board on December 17, 2015, the number of expected future deaths are 9-125 less than the actual number of deaths that occurred during the study period for service retirements and beneficiaries and for disability retirements. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

Investment Asset Allocation - The long-term expected rate of return on ERS investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table for ERS investments:

Asset Class	Target Allocation	Long-term expected real rate of return
Fixed Income	30.0%	-0.50%
Domestic large equities	37.2%	9.0%
Domestic mid equities	3.4%	12.0%
Domestic small equities	1.4%	13.5%
International developed market equities	17.80%	8.0%
International emerging market equities	5.2%	12.0%
Alternatives	5.0%	10.5%
Total	100.0%	

^{*} Rates shown are net of the 2.75% assumed rate of inflation

Discount rate - The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long- term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Chatham County Employees' Retirement Plan:

Inflation 2.75%

Salary increases 3.25% including inflation

Investment rate of return 7.60% net of pension plan investment expense including inflation

Mortality rates were based on the RP-2000 Male and Female Combined Health Mortabiltiy projected (using Projection Scale AA) to 2017 for males and to 2020 for females, and then further adjusted to ensure sufficient margin for improvement in certain ranges.

Disability mortality rates were based on the RP-2000 Disabled Retiree Mortality Table projected (using Projection Scale AA) to 2021 for males and to 2017 for females.

Investment Asset Allocation - The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table CCERP investments:

Asset Class	Target Allocation	Long-term expected real rate of return
Fixed Income	30.0%	5.3%
Large cap equities	39.0%	8.7%
Mid cap equities	8.0%	11.0%
Small cap equities	8.0%	9.2%
International equities	15.0%	6.7%
Total	100.0%	

Discount rate - The discount rate used to measure the total pension liability was 7.60%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate.

Sensitivity of the Library's proportionate share of the net pension liability to changes

in the discount rate The following presents the Library's proportionate share of the net pension liability calculated using the discount rate of 7.50 % for TRS and ERS and a 7.60% discount rate for CCERP, as well as what the Library's proportionate share of the net pension liability would-be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	_	1.00% ecrease (6.5%)		Current count Rate (7.5%)	Ir	1.00% ncrease (8.5%)
Teachers Retirement System						
Library's proportionate share of the net pension liability	\$ 13	2,398,348	\$	7,965,467	\$ 4	1,315,721
Employees' Retirement System						
Library's proportionate share of the net pension liability	\$	162,380	\$	119,822	\$	83,553
	1.00% Decrease (6.6%)		Current Discount Rate (7.6%)		Ir	1.00% ncrease (8.6%)
Chatham County Employees' Retirement System						
Library's proportionate share of the net pension liability	\$	140,336	\$	88,499	\$	44,354

H. Risk Management

Chatham County is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The County has established the Claims and Judgments account within the Risk Management Fund, an internal service fund, to account for and finance its uninsured risks of loss.

The claims liability is disclosed based on the requirements of Governmental Accounting Standards Board Statement No. 10, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Because actual claims liabilities depend upon such complex factors as inflation, changes in legal doctrines, and damage awards, the process used in computing claims liability does not necessarily result in an exact amount. Claims liability is reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors.

Liabilities for incurred losses to be settled by fixed or reasonably determined payments over a long period of time are reported at their present value using expected future investment yield assumptions ranging from 4 to 6 %. During 2017, there were no annuity contracts purchased.

Group Health:

The County has established a Health Insurance Internal Service Fund whereby premiums paid by other funds are available to pay health claims and administrative costs. Program reserves and Incurred But Not Reported (IBNR) claims of \$1,109,000 have been accrued as a liability in the Health Insurance Internal Service Fund based primarily upon the provider's projections. Interfund premiums are based upon the Health Insurance Fund's prior year's claims experience. The Group Health Internal Service Fund's total net position as of June 30, 2017 is \$5,371,508. The County retains the first \$200,000 of each health claim. Specific Excess Insurance is purchased for each claim that exceeds the \$200,000 per claim retention.

	Unpaid Claims	Incurred Claims	Actual	Unpaid Claims
Fiscal	Beginning	Including	Claim	End of
Year	of Year	IBNRs	Payments	Year
2015	1,032,115	12,310,644	12,522,759	820,000
2016	820,000	16,563,164	16,203,604	1,179,560
2017	1,179,560	17,661,154	17,731,714	1,109,000

It is estimated that all of the claims will be paid the following year.

Workers Compensation:

Workers Compensation is administered in the Risk Management Fund. The Worker's Compensation program retains the first \$750,000 of each incurred claim. The County purchases Specific Excess Insurance for each individual claim that exceeds the \$750,000 retention. Four claims have exceeded the commercial excess coverage in the past three fiscal years. The liability reported for Incurred But Not Reported (IBNR) claims and program reserves for June 30, 2017 totaled \$3,484,680.

	Unpaid	Incurred		Unpaid
	Claims	Claims	Actual	Claims
Fiscal	Beginning	Including	Claim	End of
Year	of Year	IBNRs	Payments	Year
2015	2,267,059	2,199,840	2,129,578	2,337,321
2016	2,337,321	2,518,398	2,236,820	2,618,899
2017	2,618,899	3,326,683	2,460,902	3,484,680

It is estimated that \$1,250,000 will be paid during the following year.

I. Commitments and Contingencies

The County reviews all outstanding judgments to determine if any estimated liabilities should be accrued at year end. In the opinion of management, based on this review and on the advice of legal counsel, the ultimate disposition of claims and judgments will not have a material adverse effect on the financial position of the County.

The County participates in a number of Federal and State assisted grant programs. Grant amounts received and receivables are subject to audit by grantor agencies. The amount, if any, of expenditures, which may be disallowed by the granting agencies, cannot be determined at this time. The County expects such amounts, if any, to be immaterial.

J. Financial Guarantees

In May 2012 the Chatham County Hospital Authority issued the Series 2012A Seven Mill Tax Pledge Refunding and Improvement Revenue Bonds totaling \$163,880,000. Debt service on the Series 2012A bonds is secured by and payable from payments or prepayments made by Memorial Health University Medical Center, Inc. under a loan agreement with the Authority, and from monies and investments held by the bond trustee. The Series 2012A bonds are special limited obligations of the Chatham County Hospital Authority pursuant to an intergovernmental contract by and between Chatham County and the Authority. The Authority has no taxing power. In the event that the Hospital defaults under the loan agreement, the County is obligated to make payments sufficient to pay the principal and interest on the Series 2012A bonds to the extent necessary and subject to the seven mill limitation specified by the Georgia Hospital Authorities Law. The County has not levied a millage rate pertaining to the bond issue. At June 30, 2017, the outstanding amount of the bonds totaled \$163,880,000.

K. Tax Abatements

Savannah Economic Development Authority (SEDA) provides property tax abatements to attract new businesses to Chatham County, Georgia and to incentivize existing businesses to retain or expand operations in the County. SEDA is authorized to enter into tax abatement agreements as a state constitutional authority and by state law. Tax on real property and attached fixtures can be partially to fully abated. SEDA determines eligibility, length of agreement, as well as abatement percentage based on a projects' commitment of the dollar amount of investment and the number of qualifying jobs to be created and/or maintained. Property under abatement is titled in the name of SEDA (a tax exempt entity) and a lease agreement is executed to obligate

the abatement recipient to pay the non-abated tax as a lease payment or payment in lieu of tax (PILOT). SEDA retains the payments to expend for public purposes of promoting trade, commerce, industry, and employment opportunities in the County. SEDA follows the State of Georgia's performance guidelines for recipients that fail to meet its commitments and the property may be placed back on the tax digest with no further abatement.

Under agreements entered into by SEDA, **Chatham County** property tax revenues were reduced by \$5,196,482.

L. Subsequent Events

In July 2017 the City of Savannah's city council voted unanimously to demerge the joint police force and gave the County six months to stand-up a police operation. Part of the dispute was the City claimed the County owed them \$6 million for services of the police force. The County disagreed. At this time, the County is actively pursuing a resolution over the disputed police charges with the City of Savannah.

L. Trust Fund Statements

Financial statements for each of the County's trust funds are shown herein, and are provided as a supplement to the plan disclosures found in IV A and IV B of the notes to the basic financial statements:

CHATHAM COUNTY, GEORGIA Notes to Required Supplementary Information

A. Budgets and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in this report.

- Departments heads submit detailed budget requests to the Budget Office, which reviews and compiles the requests and make recommendations to the County Manager and Executive Team.
- 2. The County Manager submits a proposed budget to the Board of Commissioners during the month of May.
- 3. The Board of County Commissioners holds such public workshops as it deems necessary and holds an advertised public hearing on the proposed budget at which the first reading of the budget resolution occurs. The budget is finally adopted at a regular Board meeting upon the second reading of the budget resolution prior to June 30th.
- 4. Annual budgets are adopted for the general fund, special revenue funds and debt service funds for legal budgetary control. Project length budgets are adopted for capital projects funds. Annual budgets are also adopted for other funds as a management tool.
- 5. Budgets for previously mentioned governmental fund types are maintained on a basis consistent with generally accepted accounting principles. The proprietary funds adopt budgets as a management tool. Since these budgets are not a required disclosure item, they are not presented herein.
- 6. The County Manager, Finance Director and Budget Officer are authorized to transfer budgeted amounts within departments. The Board of Commissioners may transfer amounts between departments and approve appropriations of additional resources in accordance with Georgia State Laws.
- 7. Supplemental and decreases in budget appropriations were properly approved by the County Commissioners. For the year ended June 30, 2017, the following supplemental and decrease in appropriations were approved:

Fund Type	Original Appropriations	Supplemental Appropriations	Supplemental Decreases	Final Appropriations
General	\$ 175,885,600	\$ 9,032,267	\$ -	\$ 184,917,867
Special Revenue	42,087,784	41,680,851	-	\$ 83,768,635
Debt Service	3,361,651	8,370	-	\$ 3,370,021

8. The level of legal budgetary control (the level at which expenditures may not exceed appropriations) is at the department level.

Notes to Schedule

Valuation date:

Actuarially determined contribution rates are calculated as of June 30, one year prior to the end of the fiscal year in which contributions are reported.

Method and assumptions used in calculations of actuarially determined contributions: The actuarially determined contribution rates are determined on an annual basis. The following actuarial methods and assumptions were used to determine contribution rates reported in that schedule:

Actuarial cost method Entry age

Amortization method Level percentage of payroll, closed

Remaining amortization period 10 years

Asset valuation method Adjusted market value

Inflation 3 percent

Salary increase Variable, 3% to 5%

Investment rate of return 7.8 percent, compounded annually

Post retirement benefit increases N/A

SUPPLEMENTARY DATA – COMBINING FUND FINANCIAL STATEMENTS AND SCHEDULES

NONMAJOR FUNDS NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS:

The Special Revenue Funds are used to account for proceeds of specific revenue sources (other than expendable trusts, or for major capital projects) that are legally restricted to expenditure for specified purposes.

Street Lighting Fund - To account for the Special assessments levied for street lighting services.

Inmate Welfare Fund – To account for the operation of the inmate jail commissary.

Confiscated Revenue Fund - To account for funds received from participation in drug related cases.

Restricted Court Fees Fund – To account for the legally restricted court fine and fee collections for victim witness fees, drug surcharge fees, and juvenile court supervision. This fund also accounts for activities of the State DUI Court.

Emergency Telephone System Fund - To account for funds generated from telephone subscriber surcharge fees for operation of the emergency 911 system.

Land Bank Fund - To account for funds generated from the sale of surplus land.

Land Disturbing Activities Ordinance Fund - To account for fees generated under the Land Disturbing Ordinance.

Multiple Grant Fund - To account for grants of the County.

Child Support Recovery Unit – To account for operations of the Child Support Recovery Unit under the Eastern Circuit District Attorney which is funded by a grant from State of Georgia Department of Human Resources.

Hotel/Motel Tax Fund - To account for the hotel/motel taxes collected.

DEBT SERVICE FUND:

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, related costs and certain contractual obligations.

CAPITAL PROJECTS FUNDS:

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

Capital Improvement Program - To account for the construction and acquisition of major capital projects which cost in excess of \$ 10,000.

Capital Improvement Bond Fund (Series 1999) - To account for the proceeds of the \$9,300,000 DSA Revenue Bonds, Series 1999 to be used for construction, improvement and replacement for specific capital projects.

Capital Improvement Bond Fund (Series 2005) – To account for the proceeds of the \$29,055,000 DSA Revenue Bonds, Series 2005 to be used for refunding of existing debt, construction and capital improvements to buildings.

NONMAJOR PROPRIETARY FUNDS

ENTERPRISE FUNDS:

Enterprise Funds are used to account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Water and Sewer Fund - To account for the provision of water and sewer services to the residents of the County. All activities necessary to provide such services are accounted for in this fund.

Parking Garage Fund - To account for parking services.

Building Safety & Regulatory Services Fund – To account for the collection of permits, plan reviews, inspections and zoning fees.

INTERNAL SERVICE FUNDS

INTERNAL SERVICE FUNDS:

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost reimbursement basis.

Health Insurance Fund - To account for the claims arising from employee medical costs for which the County is self-insured.

Catastrophic Claims Fund - To account for catastrophic claims in excess of \$100,000.

Risk Management Fund – To account for workers compensation claims and other risk management activities.

Computer Replacement Fund - To account for the replacement of desktop and laptop computers within the County departments every four years.

FIDUCIARY FUNDS

TRUST FUNDS:

Pension Trust Fund – To account for the public employee retirement plan.

Other Post-Employment Benefit (OPEB) Fund – To account for transactions related to retiree healthcare and other post-employment benefits, including activities related to the prefunding of retiree healthcare.

AGENCY FUNDS:

Agency Funds are used to account for assets held by a governmental unit in a trustee capacity as an agent for individuals, private organizations and other governmental units.

Tax Commissioner - To account for all real, personal, tangible, and intangible recording taxes collected and forwarded to the County and other governmental bodies.

Flexible Benefit Plan - To provide eligible Employees with a means of (1) selecting benefits from a "cafeteria" which are best to his/her family's needs and (2) paying for certain types of expenses with PRE-TAX income dollars (referred to as Flexible Dollars), thus reducing taxable income and increasing net take-home pay.

The following agency funds are used to account for fines, fees, and other monies collected by the courts and remitted to other parties in accordance with court orders:

Clerk of Superior Court
Registry of Superior Court
Clerk's Office State Court
Sheriff's Office of State and Superior Court
Clerk's Office Magistrate Court
Probate Court
Juvenile Court
Superior Court Administrator

COMMENT RELATIVE TO STATISTICAL SECTION

Statistical tables differ from financial statements because they usually cover more than one fiscal year and may present non-accounting data. These reflect social and economic data, financial trends, and the fiscal capacity of the government. The tables are un-audited due to the nature of the information contained therein.

G - 1

STATISTICAL SECTION

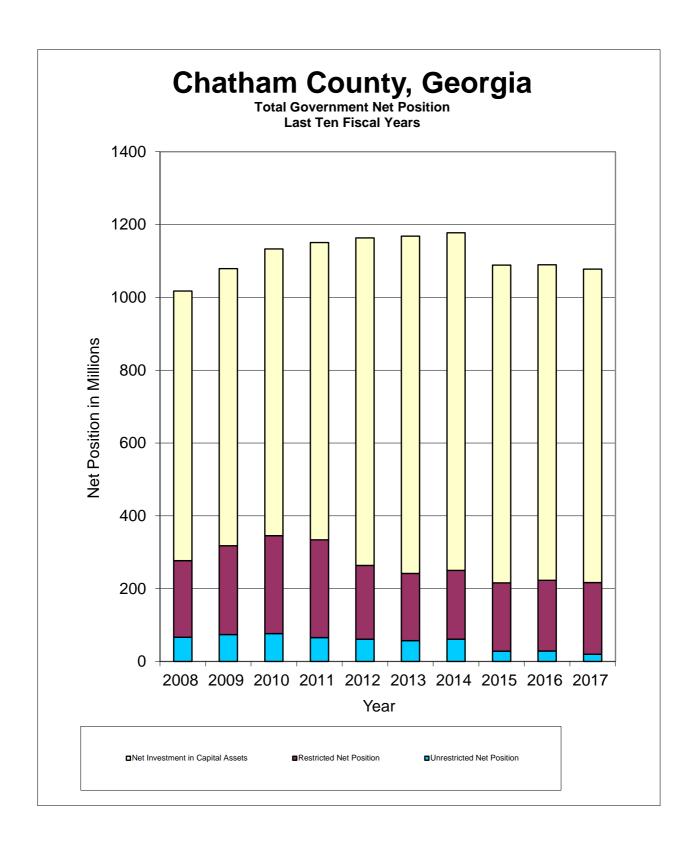

This part of the Chatham County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Contents	Page
Financial Trends	G-3
These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	
Revenue Capacity	G-12
These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	
Debt Capacity	G-22
These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	G-26
These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	
Operating Information	G-28
These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.

The Constitutional debt limitation applies to all general obligation bonds authorized. Additional general obligation bonds may be authorized to be issued if so approved by a majority of those voting in an election held for that purpose. Chatham County has no general obligation bonds authorized but unissued.
